national committee, in his first political broadcast since the conventions, said the republicans were "sincerely hoping that enough voters be frightened to secure the victory of their ticket."

Fahey said in his speech from New York that "the two favorite bogeymen in the state and dreary scare campaign which the republicans are using in their efforts to intimidate the electorate" were: 1—That the public debt will bankrupt the country.

2—That sinister forces are at work in the Roosevelt administration to weaken the constitution. "When we examine the republican case," said Fahey, "we find nothing but two scare stories, both of which disappear in the light of hard facts."

Hamilton "Optimistic" John D. M. Hamilton, the republican national chairman, brought an hectic campaign tour to a close at Sedalia, Mo., with an address in which he said he was "so optimistic about the outcome in November because the fundamental issues are becoming clearer daily in the peoples' minds."

Hamilton, charging a "political control of the WPA organization in Missouri," said Administrator Harry L. Hopkins had "attempted to cover up the sins committed here in the name of relief."

Ousted Townsenders Acts In Townsendite circles there was interest in an exchange between Dr. Clinton Wunder, ousted official of the organization, and Gilmore Young, its national secretary. Wunder said at Boston last night that he would start an insurgent movement of Townsend members who, he said, were dissatisfied with the alliance with the union party and Rev. Charles E. Conklin. Young said he had received "more than 300 telegrams, principally from the east, complaining against speeches by Dr. Wunder."

LOYALISTS MAUL SPANISH REBELS

said government troops since Saturday have occupied several towns in the vicinity of Granada, including La Zubia.

Rebels in Granada, he said, were running short of food and ammunition and their situation was desperate.

He denied reports that Alhambra had been destroyed, but he said the rebels had fortified themselves within the famous Moorish palace. The Charles the Fifth palace adjoining the Alhambra, built in 1565, was greatly damaged, he said, by government airplane bombs.

Nieto declared the mayor of Granada was shot and the civil governor and several leftist leaders arrested by the fascists. "Granada at night is like a cemetery," Nieto asserted, "with only men wearing the fascist arm band permitted to walk the streets."

Five hundred rebels were killed or taken prisoner at Avila, northwest of Madrid, in an engagement yesterday, the government reported.

At Duiraco, it was announced, loyalists loosed a heavy artillery barrage on rebels entrenched behind the Sono Sierra pass in the Guadarrama mountains.

RABAT, French Morocco, Aug. 20.—(AP)—Spanish rebel radio broadcast from Seville today said Fort Guadalquivir, defending the Bay of Hiscay sector of Iron San Sebastian for the Spanish government, had been taken by insurgents.

GERMANY WARNS MADRID AGAINST SEARCH OF SHIPS (Copyright, 1936, the Associated Press)

BERLIN, Aug. 20.—Nazi Germany, in a curt ultimatum to socialist Spain, warned Madrid to-

day that German warship commanders had been commanded to take "all means" to prevent any repetition of such incidents as the reported search of the reich's liner Kamerun on the high seas.

The official German news agency has announced the Kamerun was halted and searched by Spanish government war vessels outside Spanish territorial waters, off Cadix.

Today's brusque instructions, telegraphed by the Hitler government to the German charge d'affaires in Madrid, ordered him to warn the Spanish government that Germany will hold it responsible for "all consequences" growing out of any similar incident in the future.

The German press, fired to anger by the reported search of a German steamer by Spanish loyalists, saw in the incident a severe blow to European neutrality negotiations.

MUSSOLINI KNOWN TO FAVOR REBELS' CAUSE

(Copyright, 1936, by the Associated Press)

ROME, Aug. 20.—Italy ordered 200,000 troops into war game maneuvers today as reliable informants declared Premier Mussolini was delaying demobilization of class of 1914 recruits because of the increasingly critical situation in Spain.

Small, concealed airfields behind infantry lines of the southern terrain designated for the "game," housed dozens of Italy's modern pursuit and bombing planes.

Premier Mussolini, authoritative sources said, was determined to present a strong front against any possibility of socialist government triumph in the civil war, even if he must do it alone.

Nevertheless, a press ministry statement reiterated fascist statements of yesterday that an Italian-French agreement on the neutrality matter was "near."

PRIZEFIGHTER UZCUDUN REPORTED EXECUTED

LONDON, Aug. 20.—(AP)—The Reuter (British) news agency today reported from Madrid that the Ponta Vedra radio station announced Paulino Uzcudun, the Spanish prize fighter, had been killed with a number of others by a government firing squad.

(Previous reports of the death of Uzcudun had gone unconfirmed. There was no confirmation, immediately, of today's report from any source.)

The Spanish government, it was learned today, has notified Great Britain of the declaration of a blockade on certain coastal areas held by the Spanish rebels.

The British and Spanish governments, it was stated, were in consultation over the precise meaning of the Spanish decree, and Great Britain has not recognized the blockade.

newspaper and the guild which called the strike in protest against the discharge of two guild members.

The labor council's resolution broadly accused the Post-Intelligencer of attacking Beck to "divert public attention from the truth," and denied he was present at the meeting when the newspaper was voted unfair. At the same time, the council's resolution urged public support of the strikers "in the fight for democracy and decency, as against arrogance and greed."

In New York, the general management of the Hearst newspapers reviewed the Post-Intelligencer

strike and summarized its position with:

"An American newspaper is forced to make a choice between suspension and having its employees murdered or maimed by hoodlums of a mob which are not identified in any manner whatsoever with the publication of a newspaper; while the constituted authorities of Seattle, under domination of a political boss, refused to afford protection to organized labor men ready, able and willing to carry out their contracts."

LONGVIEW, Wash., Aug. 20.—(AP)—Asserting that freedom of the press is the only fundamental issue in the campaign, Roland Hartley, candidate for the republican gubernatorial nomination, today assailed the failure of city and state authorities to cope with the Seattle newspaper strike situation.

"This newspaper they closed up in Seattle was not friendly to me," he said. "It fought me during the eight years I was in office and tried to get me recalled. But that paper has a right to fight me and get me recalled if it can. Beneath all this is the right of the individual to express himself through the
