EARTH RUSTING AWAY—BUT NO NEED TO WORRY. WASHINGTON, Oct. 13. (AP)—A leading man of science says the earth may one day rust to death, ending all life on the planet.

Writing for the Smithsonian institution, Dr. Henry Norris Russell described today how the air's oxygen is slowly depleted by oxidizing (rusting) of iron in rocks.

"Given time enough," he said, "this inexorable process of rock decay might exhaust the remaining oxygen of our atmosphere and put an end to all that breathes."

Dr. Russell figured the end would not arrive for a billion years or more.

PORTLAND MILK PRICES ADVANCE

PORTLAND, Oct. 12. (AP)—Retail prices for certain grades of milk will advance from one to three cents a quart here next Friday under an order of the state milk control board issued after a series of hearings last week on producers' protests. The board authorized an increase from 11 to 12 cents a quart in the price of milk with four per cent butterfat content, while five per cent milk will sell at 14 cents, an increase of two cents, and six per cent milk will retail at 16 cents, a three-cent gain. The prices are effective only in the Portland area.

Chairman Edgar W. Smith said the increases were made in the face of a "real emergency" growing out of a shortage, created "as more and more producers diverted milk from the bottle and can trade to factory outlets, such as condenseries, butter and ice cream plants and powdered milk factories." Producers asserted that since May their production costs have risen, necessitating a commensurate increase in prices.
