Daily Devotions

DR. CHARLES A. EDWARDS

Every living thing must have a place of refuge from the stress and storm of life. There must be moments for relaxation, recreation, play, leisure, reading, prayer and worship. Life grows stale and hard without them. Physicians and psychiatrists are beginning to see the value of relaxation. Many have found regained health of body, and spiritual strength renewed by quietly stepping aside from the busy buzzing activities of the world. The practice of prayer and the quiet time affords us one of the finest opportunities for relaxation and spiritual recreation. In the silent moments of prayer and meditation we would listen to Thy voice as it speaks to us. In Thee we would find refuge. Amen.

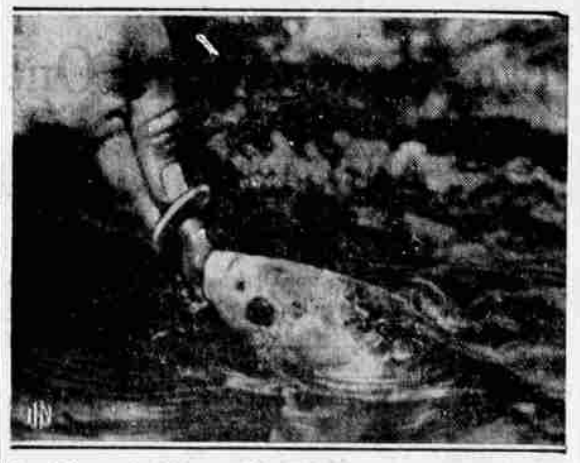
Finny, Bottle-Fed Pet



One of four trained fish, owned by L. J. Swain of Sydney, Australia, is shown getting his daily vitamins from a nippled milk-bottle, held in the hand of his owner. Mr. Swain says the fish are jealous of each other and even jumped out of their pool to have their stomachs scratched. Now you tell one.

DAIRYMEN'S ASSN. DECRIES MILK WARS

SEATTLE, Nov. 13.—(AP)—"Milk wars," even over colored milk graded by an electric eye, were on the prohibited list today of dairymen attending the Pacific Coast Dairy Products congress.

Robert E. Jones, San Francisco, secretary of the Pacific Slope Dairy association, warned his audience, "let us avoid public brawls—milk wars are out," and Charles Spears of New York City told of the newest style trend in colored milk yesterday.

"Milk wars set up sales resistance," Jones said. "By our fair dealing, let us win the farmer as well as our customers."

Yellow was the color designated by Spears as the one which cows would be expected to produce in their milk this season. He explained feeding and heredity were factors in colored milk production. An electric colorimeter may be used to determine the color grade, Spears said.

SOCIAL SECURITY TO STEP FORWARD

Delivery of Official Forms to Employers to Start Next Monday.

PORTLAND, Nov. 13.—(AP)—Oregon mail carriers will be the first to know next Monday that the social security board is swinging into action. All over the country employers will receive official blanks to report the number of their workers.

One official form specifies that the postoffices must make delivery to every "individual, firm, trust or estate, partnership, corporation, association, joint stock company and insurance company within the delivery of his office who has one or more persons less than 65 years of age actually in its employ on November 16, 1936."

Exemptions are made in self-employment, railroad industry subject to the carriers taxing act, agricultural labor, domestic service in a private home, casual labor not in the course of the employer's trade or business, service performed as an officer or member of the crew of a vessel documented under the laws of the United States or any foreign country, government service, state government service and corporations, community chests, funds or foundations organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for prevention of cruelty to children or animals.

A second form will be delivered to employers on November 24 for distribution to the employes.

RELIEF ROLLS SHOW HEAVY DECREASE

WASHINGTON, Nov. 13.—(AP)—Harry L. Hopkins, works progress administrator, announced a 28 per cent decline in relief rolls between January, 1935, when a peak load of 5,316,000 single persons and families was reached, and last August.

From August, 1934, to August, 1936, Hopkins said, there was a reduction of 16 per cent in the number of persons employed by the works program or receiving state or local relief.

The report listed 3,833,000 families and single persons on local or federal relief in August, 1936, as compared with a total of 4,250,000 in the same month of 1935. It added the 417,000 reduction took place despite the addition of 100,000 drought emergency cases.
