Daily Devotions

DR. CHARLES A. EDWARDS

The penman, the friendly cooper, the builder of brotherhood and kindness in the earth, is surely the man after God's own heart. We are members one of another; we are intended to get along together, to be brother to brother and friend to friend. Human existence will never come to its own until we learn to do that. The crime of all crimes against humanity is the crime of division and bitterness and hostility. War and the spirit that breeds war are altogether of the devil; they lead away from everything that is finely human and in the thoughts and plans of God for mankind. May we hear Thy voice calling us O God, to serve the cause of peace and justice and friendliness in the earth. Give us the spirit of our Master; the love that suffereth long and is kind to build the kingdom of God upon the earth. Amen.

Behind the Scenes in Washington

By Rodney Dutcher

WASHINGTON, May 20.—Only a thin dribble of the mail now coming to congress from its constituents mentions the supreme court.

The largest batches of it have to do with issues of war and peace. The volume isn't anywhere near as large as the supreme court mail of a few weeks ago, but it is persistent and substantial.

Highest on the mail count, among the three main issues in the war-peace field, is the resolution of Congressman Louis Ludlow for a referendum on declarations of war and for the elimination of war profits. Nearly all the letters being received are in favor of it.

Ludlow's proposed amendment would make the power of congress to declare war contingent upon a popular referendum, except in the event of an invasion of the United States or its territorial possessions which involved attack on American citizens. Congress, when it deemed a national crisis to exist, could refer for a national popular vote the question, "Shall the United States declare war on _____?" Without a favorable vote, war couldn't be declared.

Upon declaration of war the president would be required immediately to conscript "all the public and private war properties, yards, factories and supplies," fixing compensation at not more than 4 per cent on tax values.

Ludlow has 100 signatures for a petition to discharge the resolution from the house judiciary committee, but 218 are required.

The other measures are the Sheppard-Hill bill, which gives the president power to establish an economic dictatorship in case of declaration of war, and the Nye-Kvale bill, which would deny federal funds to land grant colleges where military training is made compulsory rather than optional. Most mail is in opposition to the former bill and in favor of the latter.

That Court Story
No one could ever add up all the supreme court mail and analyze it, but there seems no question that the great bulk of it was in opposition to the president's plan.

There are two stock stories, one of which you will hear in almost any senator's office, which run virtually as follows:

Opponent: "Out of every hundred letters I received during the first reaction period, only about 40 favored the plan."

Proponent: "I was amazed at the deluge of letters against the plan. Then I checked the names with people back home and found that about 95 out of 100 came from republicans."

FORECAST MADE ON NATION'S INJURED

PORTLAND, May 21.—(AP)—W. E. Longfellow's outlook upon life is none too bright. The national director of the Red Cross first aid and life saving services says one out of every 14 persons in the United States will be accidentally injured this year. Accidents took the lives of 111,000 persons last year, he said, and injured 9,700,000. They cost the American people something like \$9,500,000 a day.
