STEEL WORKERS IN FIVE STATES QUIT

(Continued from page 1) tered the ground at the height of yesterday's disturbance had disappeared.

There was no attempt by the union to renew its foray into Ford territory and no indication that efforts to distribute literature would be repeated when 20,000 evening shift employees go to work this afternoon.

There were contradictory statements as to who inflicted the injuries on the union members yesterday afternoon at three gates of the huge Rouge plant.

More Beatings Reported
The union received a report that Albert Mooradian, 24, chief shop steward in the Chrysler corporation's Highland Park plant, and a companion, James Kelly, 20, were beaten near the Ford Rouge plant this morning. Mooradian reported they were driving past the Rouge plant when other automobiles forced their car to the curb. He said men armed with blackjacks beat them.

The American Federation of Labor today stepped into the situation at the Ford assembly plant at Richmond, Calif., where a strike of workers was called by the committee for industrial organization.

E. H. Vernon of the automobile mechanics union, said he had been told by some Ford employes they wanted to join the A. F. of L.

A mass meeting was called for tomorrow night to enable workers to vote on the question of federation affiliation, Vernon announced.

He stated members of the automotive employes of Richmond a company union, had requested the membership be admitted to the A. F. of L.
