New Dodge Pick-Up

Shown here is the new 1937 Dodge ton-ton pick-up. This car is equipped with a body that is 72 inches long, 47 1/2 inches wide and 17 inches high, which permits plenty of space for the hauling of bulky loads. This model is popular in such fields as plumbing, general contracting, hardware, produce, electrical and general contracting. On display at St. Dillard Motor Co.

SMOKE OF BATTLE IN THE AIR

Smoking out the enemy used to mean forcing them into the open, but with the use of smoke screens behind which troops and planes may maneuver undetected the phrase takes on a modern meaning. Zooming toward the clouds, five planes of the Royal Air Force show how they will lay a protective smoke screen in battle during a demonstration at Duxford, England.

SIMONS, GERMAN STATESMAN, DIES

BERLIN, July 15.—(AP)—Walter Simons, former president of the German supreme court and former foreign minister, died today at the age of 75.

Dr. Simons, recognized as one of the world's leading authorities on international law, was foreign minister when Germany capitulated at the end of the World war. He retained his post when the imperial government was overthrown but left it just a week before Germany was forced to sign the treaty of surrender at Versailles on June 28, 1919.

Dr. Simons had an important part in the organization of the republic and served for two months as president pro tem of the nation in 1925 between the death of President Friedrich Ebert and the

inauguration of President Field Marshal Paul von Hindenburg.

Retiring from the supreme court in 1928, Simons devoted himself to efforts for unification of Protestant creeds in Germany. He also advocated "practical cooperation" of Catholics and Protestants.

He was a member of the congregation of the Rev. Martin Niemöller, Protestant pastor who frequently challenged Nazi authority and who was arrested July 1 on charges of "making false statements," and inciting disobedience in state institutions.

Mrs. Neville Coleman, England, refused to sit at a table for 13, dined alone, and was stricken with a fatal heart attack halfway through her meal.

T-B HOSPITAL GRANT DENIED TO OREGON

WASHINGTON, July 15.—(AP)—The public works administration announced today it could not accept an application by the Oregon state board of control for an \$80,000 grant to aid in constructing a tuberculosis hospital in Portland, Ore. The state legislature has appropriated \$119,000, or 55 per cent of the total cost of the proposed structure.

PWA officials said "the law precludes acceptance" and pointed to provisions in the new relief bill which says that "no new applications for new projects shall be received or accepted after the enactment of this law."

The Oregon application, the officials added, has not yet been received, but it was understood to be on the way.

They said the Oregon board apparently had believed the project was eligible because funds had been appropriated by the state.
