VOL. XXVINO. 92 OF THE EVENING NEWS

ARTILLERY ROARS IN BATTLE AT SHANGHAI

Editorials On the Day's News

THIS dispatch comes from Washington:
"Stubbish opposition at least temporarily blocked the administration's wage-and-hour bill today (Wednesday) in the house rules committee."
The opposition comes from the farm states of the South and West.

LET'S analyze this situation. Industrial workers, finding their cost of living rising, demand the wage and hour bill in the hope of getting more wages to meet the higher cost of living.

The farmers, anticipating that the wage and hour bill, if it becomes law, will RAISE THE COST of what the farmers have to buy, promptly demand legislation to raise the price of farm products, and threaten if they don't get it to hold up the wage and hour bill.

So there we are.

BUT, after all, WHERE ARE WE?

If the wage and hour bill results in increasing the price of what the farmers have to buy, the farmers will be worse off because their dollars won't go as far.

If the farmers get legislation increasing the price of food, the industrial workers will be worse off because their dollars won't go as far.

If BOTH get what they demand in the way of price-raising legislation, NEITHER will be any better off.

IN THE old (and according to the demagogues exceedingly wicked) days, we let supply and demand take care of all those problems.

But the old days are gone. We

(Continued on page 4)

BREWERS SUE UNION IN "RED LABEL" BAN

PORTLAND, Aug. 13.—(AP)—A suit filed in federal court here by the California State Brewers' Institute, naming officials and locals of the teamsters' union as defendants, asked \$1,800,000 damages for the refusal of the teamsters to distribute "red label" beer in Oregon.

The plaintiffs, claiming to represent 11 brewers in California and one in the east, assert that their business has "almost entirely ceased" in the state as a result of the blockade. Actual loss is placed at \$600,000 and triple damages are claimed under the provisions of the Sherman and Clayton anti-trust laws.

Defendants are David Beck, Seattle, international vice president of the teamsters' union; Daniel Tobin, New York, president; Al Rower, secretary of the Portland local, and the Portland, Eugene, Astoria and Marion county locals.

Oddities Flashed From Press Wire

Police Geography

RICHMOND, Va.—Frank Moran, secretary to state police superintendent, told this one today:
A rookie state patrolman, feeling the influence of his badge and gun, stopped a tourist car which was several inches out of the right highway lane.

"Where are you from?" he demanded.

"Cincinnati," replied the tourist.

"Well, buddy, suppose you explain why you've got Ohio tags on your car."

"That's just what Berkeley firemen did. Their siren quit."

Shocking!

PHILADELPHIA—The zoo here has put five electric eels to work. Two electrodes, a bit of wire and a bulb have been rigged up. The eels, touching one electrode, light the bulb. Each eel generates up to 500 volts of electricity, attendants in the reptile house estimate.

Farmed Out

BLAIRSBURG, Pa.—Gerald Brown of Des Moines worked one day on the C. I. McLaughlin farm and returned home thoroughly convinced he is no farmer.

Warned next not to get too close to a colt in the barn, he paid no attention. The colt kicked him out of the stall. Brown left for the city by nightfall.

Pinch-Whistlers

BERKELEY, Calif.—"On, gimme a truck, a big red truck."

"And gimme a fire-axe, too—"

"And I'll go, wahoo, wahoo—"

"Was-a-hoo!"

"That's just what Berkeley firemen did. Their siren quit."
