

COOPERATION BID IN MESSAGE SEEN

WASHINGTON, Jan. 5.—(AP)—W. A. Harriman, chairman of the board of Union Pacific railroad, said that President Roosevelt's message to congress Monday paved the way "for the development of sound cooperation between business and the administration."

He made the statement in a telegram to Secretary of Commerce Roper, Harriman's chairman of the business advisory council, a group of 55 business leaders who act in an advisory capacity to the commerce department.

"I know I can speak for your council in pledging our assistance to . . . the attainment of the objectives we all seek," the telegram said.

In making the telegram public, Roper said the council also was in accord with a suggestion made by President Roosevelt at his press conference yesterday that business and the government should find means of intelligent planning of production.

The secretary declined to suggest any method of carrying out the proposal, but said it would be one of the first items of consideration at the next meeting of the business advisory council, January 20. It was understood the president would invite the council to meet with him at that time.

RECESSION BLAME ON BONUS DECRIED

WASHINGTON, Jan. 5.—(AP)—Representative Rankin (D., Miss.), asserted today that Marriner S. Eccles, chairman of the federal reserve board was the "one man most responsible" for the current business slump.

Rankin made the assertion to the house in challenging Eccles' statement before a senate committee investigating unemployment that payment of the soldiers' bonus contributed to the recession.

"No money that has yet been paid out by the administration did more good, dollar for dollar, than that paid to the veterans . . ." Rankin said.

"The truth of the business is that the one man most responsible for this recession is Marriner S. Eccles—if he had the influence with the federal reserve board that he is supposed to have, and he need not try to pass this buck to the veterans of the World war."

Representative Patman (D., Tex.), co-author of the bonus act, said Eccles' statement was the 5th excuse he had given for the recession and "of all of them, that's the poorest."

Fletcher Valentine knows tobacco values...like so many other independent experts he smokes Luckies!

"I've bought 4,000,000 pounds of tobacco at auctions in the past ten years," says Mr. Valentine, independent buyer of Westfield, N. C., "and my bread and butter depends on making the right bids. That's why I have to know tobacco values."

"Now I've smoked Luckies ever since 1918, and the reason is, they suit my taste to a 'T'. Nobody knows better than we tobacco men that Luckies are made of the finest center-leaf tobacco."

Yes—and that isn't all...Luckies' exclusive process, "It's Toasted" takes out certain irritants naturally present in all tobacco—even the finest! The result is that you will find Luckies not only taste good but are easy on your throat.

Uninterrupted service is the ideal of every electric service company, and it is a continual battle with the elements to provide it. Many a stormy night when you are cosy and warm inside your house, with cheerful lights and an entertaining radio, our linemen are working desperately out in the storm because

the service
must go on

Sometimes, of course, the elements win. But these occasions are so infrequent, and service is in most cases so quickly restored that we feel justified in calling to your attention how nearly we do approach our ideal of uninterrupted service.
