CREATIONS OF ART WITH NEEDLEWORK

PATTERN No. 447

OVAL DOILIES IN FILET CROCHET

The number of places that need doilies of this shape is endless. First of all, we had in mind your bread tray for the smallest doily, (6) by (9) inches. And then there's that end table on which a round doily never looks well; either of these larger ones (13) by (8), and (15) by (10) would be just right. Or, use one large and two small ones to make a buffet set to match your bread tray doily. For your bedroom, you can have a vanity set and cover for the bedside table.

The pattern envelope contains complete, easy-to-understand, illustrated directions with block and space diagrams to aid you; also what crochets hook, what material, and how much you will need. To obtain this pattern, send for No. 447 and enclose (10c) in stamps or coin (coin preferred) to cover service and postage. Address News-Review, Needlework Department, Roseburg, Ore.
