WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go
The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.
A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Don't stubbornly refuse anything else.

"Getting an average of 26 miles per gallon.."

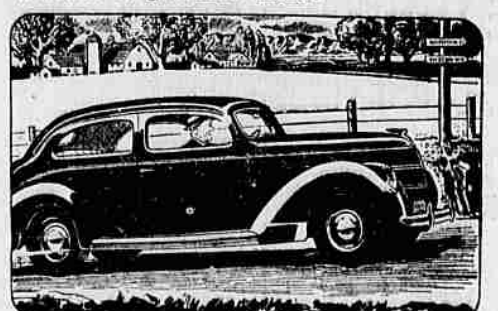

Read what Mr. R. M. Corley writes about his Thrifty '60' Ford V-8—

"I have 1,700 miles on my V-8 '60' right now, and have been getting an average of 26 miles per gallon on regular gasoline."

"I'm a traveling salesman covering an average of 2,000 miles per month. At this rate I will be able to save \$12.50 a month on gasoline alone."

"My cruising speed is 55 to 60 miles per hour. The V-8 '60' does 60 miles an hour all right with plenty of speed and power in reserve."
