

FREED MOTORIST SUES STATE POLICE

SALEM, June 10. (AP) — W. B. Herron, identified only as a Multnomah county citizen, filed suit yesterday in circuit court for \$50,000 damages for alleged false arrest and automobile conversion.

Named in Herron's complaint were Charles P. Pray, superintendent of state police; Richard Seagrants, Fred E. Wescott and Edward C. Snow, troopers, and Leonard A. Maple, Clackamas county constable.

Herron alleged he was wrongfully stopped on the east side Pacific highway between Portland and Oregon City last April 29 by the state police and the constable. His complaint averred that he was abused, arrested on a charge of driving without an operator's license, and his automobile taken from his possession.

Herron declared an Oregon City justice court found him not guilty on May 18.

8 DIE IN CRASH OF ARMY BOMBER

(Continued from page 1)

wrecked ship and its crew.

MARCH FIELD, Calif., June 10. (AP) — From the flaming crash of an army attack plane one man survived today to tell March Field investigators how his pilot met death on a training flight last night.

Private William White escaped by a parachute jump when the plane, flying low under fog in San Geronimo pass, plummeted into a hill midway between Banning and Beaumont and killed Second Lieutenant Joseph C. Marcy, air reserve.

SOUTHERNERS SEE WAGE BILL VICTORY

(Continued from page 1.)

made on the other major pre-adjournment issue — the \$2,723,000 relief and public works bill. A joint committee yesterday accepted a senate amendment increasing the WPA allotment from \$1,250,000,000 to \$1,250,000,000.

President Roosevelt had requested the increase because he said there has been no recent improvement in employment. The larger fund will be expected to last until next March 1.

The committee took up today a senate amendment to add \$212,000,000 to farm benefit funds. Some house members opposed it. Committee members predicted a final agreement during the week-end. If the wage-hour conference can get together, adjournment is expected next Tuesday or Wednesday.

JAPANESE BLOW UP CHINESE RAIL LINE

(Continued from page 1.)

the mountainous hinterland. He said the Chinese army had doubted its fighting power in the eleven months of warfare and now had the backing of a more unified nation with greatly improved morale.

HONGKONG, June 10. (AP) — Japanese bombing planes tonight rounded out two weeks of daily bombardments of Canton or its environs with an attack on the outskirts of the teeming South China metropolis.

The raiders withheld their bombs when they passed over congested areas but the distant thunder of bombardment showed they attacked the fringes of Canton where the waterworks and other utilities plants are located.

INSURGENTS' LONE RAIDER AGAIN HITS

(Continued from page 1)

brings his seaplane down from the night sky, dropping bombs first, then falling about while machine-gunning his objective with incendiary and armor-piercing bullets.

The process is repeated until his falling gasoline gauge tells him to return at his base.

En route to his base early yesterday, the seaplane swooped down almost touching the sea to machine-gun a launch. With the launch riddled, the seaplane climbed and continued to its base.

Gandhi was first attacked two days ago, with the destruction of a dredgeboat, warehouse and railroad property in what Apple said was a "deliberate and brazen attack on British property."

The two-masted schooner sunk today was of Spanish registry. The plane dropped six bombs.

The traffic fatality record for drivers under 20 years of age is five times as bad as that for drivers in the age group from 45 to 50 years. This report is based on a mileage basis.

PORTLAND HOTELS FACE BOYCOTT PERIL

(Continued from page 1.)

hotel association, said more applicants appeared than could be handled.

Old employees were not asked to return in some cases. In others, they were told jobs awaited them if they "tore up their union cards."

Unconfirmed rumors, which union officials did not deny, indicated workers in other hotels would be called out on strike today unless a settlement was reached. Conferences of hotel operators and union representatives with E. P. Marsh, department of labor conciliator, produced no results last night.

Officials of five unions involved called the strike to force recognition. Hotel men had demanded a city-wide vote to determine the bargaining agency.

A bakery workers' and salesmen's strike, set for today was called off last night when operators agreed to renew last year's contracts without change. Operators previously had demanded that bakers work 40 instead of 36 hour weeks.

Cement Routs Cavenmen

Durly Grants Pass cavenmen refused to accept the inconveniences of the hotel strike last night and established a street camp for several hours before a downtown hostelry.

Shaggy dressed members of the famous order, in Portland to participate in the Rose festival, cooked a bit of special dinosaur meat — sort of stewed in the blood of a saber toothed tiger, they said — while police looked on indulgently and crowds gaped.

A few of the more hardy southern Oregon primitives, made beds on the concrete. The cement was a little too tough for even these hides, and with ferocious yells and clubs waving the cavenmen vanished into the hotel.

Twenty men and five women marveled in the festival's floral parade.

CHILDREN'S DAY SERVICE ARRANGED

The annual Children's day service will be held in the Presbyterian church in Roseburg, Sunday, at 9:45 to 11 a. m. The Sunday school will present the Children's day program at this hour, and the vacation Bible school now in progress, will have an important part. The Presbyterian church in making this announcement extends a cordial invitation to all to attend and help encourage the educational work of the church. Good music will feature this celebration.

DINNER PLANNED BY HEALTH UNIT ASSN.

Douglas County Health Unit association will hold a six-thirty o'clock no-host dinner Monday evening, June 13th, at Carl's Tavern, with Dr. Bostrum, of the state health office, present. Anyone interested has been invited to attend the dinner meeting. Reservations may be made by calling the Tavern.

McCALL CONFESSES KILLING CASH BOY

(Continued from page 1)

little victim, he took it to the shack of a negro, John Emanuel. Disguising his voice, McCall tried to persuade the negro to take it to James Bailey Cash Sr. When Emanuel became frightened and fled, McCall placed it under his door.

Circuit Judge Gomez called a special grand jury session Monday to consider any charges State Attorney George A. Worley may bring against McCall. Hoover said no federal law was involved in the case. Florida provides a death penalty for kidnapping for ransom however. A jury has the prerogative of recommending mercy, in which case a sentence of life imprisonment is mandatory.

FLOOD CONTROL BILL CHANGES REJECTED

(Continued from page 1)

cut 70 per cent by the house. Would Transfer Authority

The bill also was amended in the senate to transfer from the army engineers to the federal power commission authority to determine the advisability of adapting flood control reservoirs to possible hydro-electric development.

The senate also approved an amendment to invest the government with full title to flood control dams and necessary lands.

The senate left unchanged the programs for various river basins proposed by the house, except for minor or technical amendments.

The senate increased from \$10,000,000 to \$15,000,000 a proposed appropriation for expenditure by the department of agriculture and the federal power commission in carrying out examinations and surveys.

UMPQUA CANAL PROJECT HEARING HELD IN ROSEBURG

(Continued from page 1)

could conservatively be estimated at an additional \$1.90 per thousand as a result of the lower freight rates which water transportation would provide. Including the privately owned timber on the same unit value, total benefits, it was declared, would exceed \$70,000,000.

Annual savings, or benefits, the engineers were told would exceed \$4,000,000, of which general cargo would amount to \$1,100,017.50; forest products, \$2,359,500, and stumpage \$650,000.

The various factors of the proposed development were presented before the engineers in a printed brief, prepared for the Roseburg Chamber of Commerce by Consultant G. A. Carlson of Portland, Ore. Testimony supplemented this brief, numerous witnesses being called and questioned on behalf of the proponents by Attorney Guy Corcoran.

Carlson Presents Data

The morning hours of the hearing were largely taken up by the testimony of Consultant Carlson, who presented the Roseburg brief, amplifying the statements of the document with oral explanations of sources of information and available statistics for further breakdowns of general data.

The testimony of the witnesses was heard by Major Damon, district engineer; R. E. Hickson, principal engineer; Roscoe F. Cole, assistant engineer, and was recorded by Stanley E. Johnson, stenographer.

Preceding Mr. Carlson were C. Frisbie, who testified regarding mineral resources; Harris Ellsworth, who gave a general history of the Umpqua navigation project, and Billy Vinson, whose testimony concerning the trip of the "Swan" to Roseburg was of importance in establishing precedent concerning actual navigation of the river.

The hearing was continued into the afternoon hours, with a score or more of witnesses scheduled to appear before the board to discuss various benefits expected to result from the proposed river improvement.

ROSS' BONNEVILLE RATE PLAN OKAYED

(Continued from page 1.)

transmission system.

At site rates for prime and secondary power will be available to private purchasers for their own use, but not for resale and to public bodies, cooperatives and privately owned electric utilities for distribution within 5 miles of the Bonneville plant.

Contracts to Vary

All contracts for prime power will be negotiated on a five-year basis; for secondary power, one year.

For transmissions system prime power the commission adopted a five-mill per kilowatt-hour "ceiling" for cooperatives and other small customers requiring a demand of less than 1,000 kilowatts and to be applied for the first two years of service under the schedule.

Bay Yields Last BOAT UPSET VICTIM

man, but the child was dead.

J. A. Huntsman, reported to be a poor swimmer, had to be restrained from leaping into the bay in a courageous but futile rescue attempt, as he saw his entire family drown.

Those who lost their lives were Mrs. Edna Huntsman; her three children, Elvin, 9; Virginia, 7, and Cody, 2; and Joyce Penick, 3.

We Will Pay \$20.00
For the Best Letters

WHAT DO YOU THINK OF THE PRACTICE OF LIMITING ADVERTISED GROCERY ARTICLES?

To Limit! Not to Limit!

That's the question! And we want to know what you, our customers, think of the practice . . . therefore, we

Offer \$20.00

\$10.00 for the letter selected in favor of NOT limiting purchases on advertised items.

Judges will select what they consider the best letter, and the one writing the letter selected will receive \$10.00 cash. TWO \$10.00 PRIZES IN THIS CONTEST.

Each letter submitted becomes the property of Mac's Market. The right to refuse any and all letters is reserved. The entrant in this contest agrees upon submitting his letter to release all rights of publication—in other words, the letter becomes the property of Mac's market. Letters should be written on one side of paper only, and there is no limit as to number of words. Just write what you believe. They should be addressed to Mac's Market, 114 N. Stephens Street, Roseburg, Oregon, and, since this offer closes Thursday, June 30, 1938, they should be mailed at once.
