

CONGRESSWOMEN LIKE THEIR JOBS

All Six Seeking Another Term After Session of Much Activity.

By BETH CAMPBELL

WASHINGTON, June 15.—(AP)—A small band of women won new legislative laurels for the sex in the seventy-fifth congress which closes tonight.

Rep. Mary T. Norton (D., N. J.), dramatically fighting for the wage-hour bill, became the first woman to pilot a major administrative measure through the house.

Mrs. Hattie Caraway (D., Ark.), lone woman senator for most of the time since she was appointed in 1931, abandoned her silence on the floor and took an active part in debate.

Affable Dixie Bibb Graves stayed in the senate only four and a half months, by appointment of her Alabama governor-husband, but received praise from any colleagues for her speech against the anti-lynching bill.

Rep. Edith Nourse Rogers (R., Mass.), successfully sponsored legislation to have April set aside as cancer control month.

Rep. Caroline O'Day (D., N. Y.), helped fight a winning battle against changing child labor provisions in the wage-hour bill, and Rep. Virginia Jencks (D., Ind.), was active in excluding the canning industry from the same measure.

Rep. Nan Honeyman (D., Ore.), stayed in the capital to support farm and wage-hour legislation while her constituents renominated her.

The six women like their jobs so well that all are seeking another term.

Mrs. Norton's supervision of the wage-hour bill began when she fell heir to the labor committee chairmanship last June. She studied day and night and her committee approved a measure in August.

In the special session last December, she led the floor fight for the bill, sending out for milk at lunch time. A coalition of republicans and southern democrats shelved the legislation.

The rough-and-tumble battle resumed in January. By mid-April Mrs. Norton got her committee to agree on a revised measure, only to be stymied by refusal of the rules committee to let it come up for discussion. Finally she forced the bill before the house by using a petition, just as she had done in the special session.

She was ill of gripe when the bill came up again, but she stayed at her post, and the measure was approved. An infection set in and she went to bed, but got up quickly for all-day sessions of a house-senate committee which finally reached a compromise on the legislation. It went to the white house last night.

Daily Devotions

By DR. CHAS. A. EDWARDS

There are two enemies of human freedom; first, those who are afraid of liberty, the dictator and the inquisitor, who coerce men by threat and by the fear of death. The second is the selfish coward within the citadel of the soul. As we surrender to our lower selves we become the degraded and cynical creatures who despise the disciplines of liberty and welcome the brutal discipline of the tyrant. The spirit of the Lord in our hearts delivers us from the power of sin, and so gives us the courage to stand up fearlessly against all tyrants: because death does not have the last word, but the God who made the universe made it to be a home of freedom, and whom the spirit of God makes free, is free indeed. Amen.

Something to Crow About

As arrogant as it is rare, this Yokohama rooster, displayed by its owner, Mrs. J. E. Pepin of Los Angeles, has a "train" 15 feet long. Mrs. Pepin and her husband, who are animal importers and exporters, believe this longtailed bird and its mate are the only members of their species in America. They arrived recently from Korea.

Tale of Mental and Bodily Anguish Flows From Scribe After Unaccustomed Ride on Horse Under Distressing Circumstances

By WENDELL WEBB

SAN FRANCISCO, June 15.—(AP)—This story is a public apology to a horse—delayed a bit because the writer couldn't sit down to type it.

It concerns an airplane crash and a trip up a mountain.

The airplane smashed into a peak in Yosemite national park March 1 last. It was found Sunday. The next day a party of 25 went to the scene, recovered the bodies of the plane's nine occupants, and brought them to the valley. All that has been written—standing up.

And now for the apology. In the first place the writer assured stablemen he could ride. He did once, too, in a park. But the horse didn't know it. He wouldn't move. Someone hollered to kick him in the ribs. It worked. We never shall kick a horse in the ribs again.

It took a mile to decide who or which was boss. The horse won. Just to prove the point he heaved his passenger over a small cliff. They say it was only 20 miles to the plane, 9,750 feet up, and through 26 rivers and six feet of snow. The trip took seven hours, three soakings and partial paralysis.

Return is Nightmare

The trip back gives rise to the apology. It was mostly at night.

There were deep holes in the snow. The horse found them all. He swam rivers he could have waded. He squeezed between trees he could have gone around. He stopped until the horse in front disappeared. Then he'd run underneath quite firm branches to catch up.

Finally the trail came out of the forest. It went down a 5,000-degree angle along a cliff. The horse stopped for a nibble of foliage. His rider's brakes weren't so good.

Five miles—or 500—from the valley it got serious. Something shot him amperage current in the spine. The sides of the saddle grew spurs. The horse decided to trot. Physical suffering in silence ended. That is, the silence ended. It is for that the apology is made.

No horse should hear a 1,000-foot gorge echo reflections on his ancestry and the allegations that he was a 30-and-so, a this-and-that and a cross between a mountain goat and an electric chair.

The last mile both of us walked. The horse stepped on our foot.

A ranger said, "quite a trip, eh? Tired?"

Hah, hah! horse, I hope you're satisfied.

U. S. BUYS FLOUR IN PLAN TO AID NEEDY

WASHINGTON, June 15.—(AP)—The surplus commodities corporation announced today the purchase of 914,900 barrels of flour at a cost of about \$4,200,000 from millers in virtually all sections of the country for distribution among needy families.

This acquisition was in addition to 134,000 barrels bought several weeks ago.

F. R. Wilcox, vice president of the corporation, said the purchase program was designed "primarily to relieve temporary market distress and to increase use of wheat of which there is a large surplus."

The new purchase amounted to a total of nearly 9,000,000 bags of flour. It will be distributed to needy families through state relief agencies.
