## Daily Devotions

By DR. CHAS. A. EDWARDS

Life for most of us these days is busy and bustling, and the call to activity comes to us in the waking moments of every day. But there ought to be a call to something else, to reach us even before that one does. A call to gratitude and thanksgiving, a call to the thoughtfulness and quiet waiting in the presence of God. A few brief moments given in answer to that call will not shorten the day for its busy activities, but rather lengthen it by starting it out in an ordered and hopeful way. Jeremiah pictures a man going into life stupidly unprepared, "as the house rushes into battle." We thank Thee, O God, for this day, given to us to fill with the things that are best and worthiest. Do Thou help us to spend it in Thy fear and to Thy glory, and not to sully any of its opportunities with neglect and selfishness and sin we ask it in Jesus name. Amen.

## OREGON EVENTS FLASHED FROM WIRE SERVICE

**PORTLAND, July 15.**—(AP)—T. M. Murray, assistant in charge of wild life restoration federal aid, said yesterday agencies for the restoration of wild life in Oregon would spend \$25,038 in 1938-39 for development of essentials in maintaining native animal life.

**WASHINGTON, July 15.**—(AP)—Works progress administration rolls increased during the last nine months from 6,849 to 16,913 in Oregon, WPA officials said yesterday. Other states showed large increases also.

**PORTLAND, July 15.**—(AP)—Contact with a 22,000-volt high tension wire at the Beaverton substation of the Portland General Electric company killed Leonnes L. Dambonspeck, Portland wireman, yesterday.

**PORTLAND, July 15.**—(AP)—Applications for state unemployment insurance will be filed on mass by striking employes of 36 Portland hotels, they decided yesterday.

**SALEM, July 15.**—(AP)—Auto fatalities in Oregon during the first half of 1938 were 16 per cent fewer than during the same period last year, Secretary of State Snell said today.

The reduction was caused by fewer accidents in which more than one life was lost. During the first six months of 1938 there were 33 multiple death accidents, while this year there were only three.

**PORTLAND, July 15.**—(AP)—The city council sided yesterday with J. E. Bennett's request for the apprehension of the person who attacked Robert W. Dunn as he left the courtroom after testifying for the prosecution in a gambling case. Bennett asked for \$500. The city offered \$200.

**REDMOND, July 15.**—(AP)—Although critically ill, physicians said today Nathan Nesheim, Madras sheepherder, would recover from spotted fever. The case was the second of the year in this district.

**PORTLAND, July 15.**—(AP)—U. S. Burt, Coevallis became a candidate for the chairmanship of the Oregon democratic central committee yesterday.

The idea still persists today in many sections that cats will suffocate a sleeping child by sucking its breath. Such a belief is not based on fact, but perhaps on the fact that cats do like to sit on the chest of a sleeping person, which, in the case of babies, makes breathing difficult.

It is also against the law, he says, to act as campaign manager or assistant manager for a candidate seeking such an office. "It is the policy of the works progress administration that this regulation shall also be applicable to candidates for federal offices, and to campaign managers, or assistants, thereto for any such candidates," Hopkins said. "Furthermore," he wrote, "it is the policy of the works progress administration that no such person while holding an elective office, the duties of which would necessitate being absent from a WPA position during regular WPA working hours, or to which a salary in excess of \$200 per year is attached, shall be employed."

## POLITICAL BAN HITS EMPLOYES OF WPA

**WASHINGTON, July 14.**—(AP)—Harry L. Hopkins, works progress administrator, barred WPA employes today from certain federal as well as state political activities.

In a letter to all state administrators, Hopkins explained that the law prohibited the use of relief funds "to pay the salary, or expenses of any person in a supervisory, or administrative, position who is a candidate for any state, district, county or municipal office" which would pay compensation and require his full time.

It is also against the law, he says, to act as campaign manager or assistant manager for a candidate seeking such an office.

## DUSTED CIO RETURN FOR BELONGINGS

**WESTWOOD, Calif., July 14.**—(AP)—Small groups of CIO unionists and their women and children, driven from Westwood yesterday after a riot between lumber labor factions, struggled back here today asking to be allowed to get their belongings.

One man was shot and 30 others were beaten in the street battle that almost brought national guard and coast artillery troops to this lumber company-owned town. Authorities said the returning CIO families would be allowed to return, one by one, and take their household possessions away with them.

Some 750 of the CIO sawmill workers and their families camped on the highway last night between Westwood and Red Bluff, 80 miles east of here.

Yesterday's street battle climaxed a strike called by the CIO unionists last Thursday night against the Red River Lumber company. The CIO group had objected to a 17 1/2 per cent wage cut. The mills closed Monday.

## SYNOD BACKS NEW LIQUOR SALE PLAN

**EUGENE, July 15.**—(AP)—Vigorous resolutions, one upholding the proposed measure confining the sale of liquor to stores, and the other condemning the proposal to legalize gambling in Oregon, were passed yesterday by the Presbyterian synod of Oregon, holding its annual session on the University of Oregon campus. The synod elected as trustees

for the coming year Rev. W. B. Mahon of Portland, Charles T. Hurl of Portland, B. L. Eddy of Roseburg, George H. Lee of Newberg and J. J. Ross of Portland. Rev. Mr. Mahon will be president and Mr. Hurl secretary.

The synod voted to continue membership in the Oregon council of churches and authorized an appropriation of \$2000 for the support of this organization. It was also decided to increase the length of the synod in 1939, when it will meet from Tuesday through Friday.

## MEAT PRESERVATIVE WARNING ISSUED

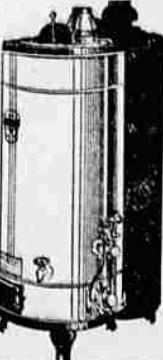

Meat dealers were warned this week by the state department of agriculture that the use of sulphite preservatives in their products constitutes an adulteration of the food in violation of state law.

"The coming of the warm summer months has induced a few meat dealers to use the chemical preservative," the department officials say. "As the chemical improves the appearance of the meat, the consumer is led to believe that he is purchasing food of better quality than he is getting."

Several court actions for this cause have been brought by the department within recent weeks. "It is necessary that perishable foods be preserved," says J. D. Mickle, foods and dairies division chief, "but today all reasonable ends in the preservation of meat are accomplished by cold storage. The department takes the position that the consumer is always entitled to know the condition, quality and contents of the food he eats. However, where we find sulphites in use, the consumer is not told of this fact."

"I'm all steamed up—hot enough to blow the lid off and tell what I really think. They keep me on the job 18 hours a day—heating water for everything from breakfast dishes to the baby's bath. \* What but this family needs is a new automatic gas water heater. It would cost them less than keeping me constantly on the fire, and they wouldn't have to wait for hot water." \* Mr. T. Kettle is right. An automatic gas water heater is the most efficient appliance for the purpose ever developed. Low operating cost. Terms to suit your purse. Inquire today.
