Come Again
FOR the sake of some 370 million Chinese and about a fifth as many Japs, it's devoutly to be hoped that Japan knows what it's talking about when it makes its bid for the 1944 Olympic games.

The bid is based on the assumption that by 1944 there will be peace in the Far East. This assumption is expressed in the Japanese note. What is not expressed is the assumption that the peace will be a Japanese peace following a Japanese victory. That's something else again. The assumption, of course, is there, for a warring nation isn't in the habit of setting a period as the outside time it expects merely to survive.

Thus the bid for the games takes a color of a kind of "public relations counselor's" coup. It may or may not have the intended psychological effect on other nations. That depends to some extent on how familiar the rest of the world has become with the American public relations technique.

To the American eye the Japanese note looks a little like such dubious items as: "The Goetz Co. announces that contrary to popular belief it expects an even more successful season," or "Mrs. Diva states this is positively her last farewell tour."

Always Beginning

It used to be that when somebody came out with a prediction that the average man would live to greater and greater ages as time went on you'd hear the comment: "There wouldn't be anything to do!"

You don't hear that so much any more. This may be the age of youth, but new vistas of enjoyment and achievement for the older man and woman have been coming in sight, and it looks as if they're going to keep right on multiplying.

Science, medicine, the material benefits of civilization have made the last decades of a man's life more attractive on the physical plane, but quite as important has been the discovery that no real basis actually exists for the elderly person's assumption that the adventures of the mind belong only to the young.

New evidence that gives the lie to such an assumption is disclosed in a nation-wide study of several thousand university extension students, young and old. The findings of the study make it plain that the average man's mental powers decline very little with age, that he often proves to be a more brilliant student than his younger classmate, and that the only obstacle to an old age filled with intellectual adventure may be ignorance of one's own capacities.

Today belongs to youth, but it belongs to age, too.

SAFETY councils all over the country have done almost spectacular work in stemming the tide of traffic deaths and injuries, principally by prosing aggressive programs of education among motorists and school children.

But now it turns out that there's a "forgotten man" in the traffic safety campaign, according to one of the Safety Council's publications. He's the man on foot, the adult pedestrian, and his case has been sadly neglected. A move to establish advisory clinics for his benefit is now afoot. Wichita, Kan., already operates one.

That a need exists for some such clinics appears from the traffic figures of 13 large cities. Pedestrian deaths, the figures dis-

close, compose 75 per cent of the total accident fatalities in those communities.
In the meantime, any pedestrian with an ounce of sense can increase his life expectancy by himself, simply by remembering such simple rules as: Don't cross intersections diagonally; don't try to beat the crossing light to the draw at the last minute; don't trust to the driver's consideration; don't try to look at two pretty girls at the same time from the middle of the street.

Heaven dropped down from the skies?
And why do they regard the rumpled, chin-stubbed, altogether disreputable looking individuals gathered around them as a little group of God's choicest children?

If you can answer these rambling and more or less incoherent questions, it will be evidence that you understand why a certain kind of men are a certain kind of men.
You will also be able to understand why the Order of the Antelope, with its job all done, just can't be stopped, but goes galloping on into the future, with its head up and its tail in the air.

ROSEBURG LIONS TREATED TO MOVIES

An interesting showing of motion pictures, containing news and sports topics, was sponsored before the Roseburg Lions club by the Associated Oil company at the club's regular meeting last night. Announcements were made that the club at 6 o'clock this evening will play the Kiwanis club a game of softball at the Umpqua Park diamond. All members of both clubs are urged to attend. Plans also are being made for a Lions-Kiwanis golf match, to be played about the middle of August, and fellows of the Lions club are asked to get in touch with Bill Goodwin, chairman.

RAMBLINGS

by Paul Jenkins
I FOUND the following letter from W. H. Dixon, Glendale, California, contractor on my desk this morning:
"Dear Rambler: Here is a check to keep that was coming to me in this way for another six months. I spent three days around the 4th on the Calapool ranch and, notwithstanding the wettest spring and the driest June in 34 years (or is it 134?) found the cows still keeping their date with the creamery truck, the calves fat andassy, the pigs coming along in true porcine fashion, the turns full of hay and volunteer grain, the hens laying merrily and the broilers—Oh, Boy!
I sure hated to come back, but got to keep the old nose on the grindstone down here or I won't be ready to get up there for keeps next spring.
By the way, I note your recent jibe at California middle-of-the-road drivers. The answer is that we Californians are accustomed to broad four-lane boulevards, and when we get on one of those narrow strips of concrete up there we think it's a one-way road, and quite naturally barge right down the center of it. So there!"
Well, I can't think of any answer to that explanation, W. H. It sounds plausible.

Daily Devotions

By DR. CRAS A. EDWARDS
Ours is a gospel of liberty and the freedom that there is in Christ is one of its great boasts. But our freedom has its own limitations and obligations. Jesus spoke of a straight gate and a narrow way, and there was a deep and a profound meaning in His words. Christian living calls for care and thoughtfulness and a wise guiding of thought and purpose and action that life as a whole may fit into a divine and a well-rounded pattern. Haphazard, thoughtless, imprudent living is not Christian living. Alertness, faithfulness to duty, an eagerness to know and to understand are to be reckoned among the real Christian virtues. So teach us to number our days, O God, that we may apply our hearts unto wisdom. Help us to take the duties of life seriously. To lay obligations upon ourselves that we will not let ourselves shirk, but play the game faithfully with ourselves and Thee. Amen.

BENEFITS SOUGHT BY HOTEL STRIKERS

PORTLAND, July 28.—(AP)—The culinary unions' executive council requested the state unemployment commission yesterday to grant immediate hearings on the applications of striking hotel workers for benefits.
Union spokesmen, who said applications had been returned, asserted they desired to present evidence why their members should receive assistance. The union called a strike at 16 hotels in June but the hotels remained open with other labor.

Back From Coast—Mr. and Mrs. Henry Anderson and baby son and Mrs. Anderson's brother, Donald Frost, and Mr. and Mrs. Edward Frost have returned to their homes, following a few days at Empire, Sunset bay and Winchester bay, fishing and clam digging.

Back to Work—Harry G. Linsler has returned to his work in the Douglas National bank building, following a two weeks' vacation. He spent one week at Tye's visiting friends. Mr. Linsler remained there for a longer visit.
