

WHEAT LOAN PLAN TO BE LIBERALIZED

WASHINGTON, Aug. 9.—(AP)—The Commodity Credit Corporation announced today that the government loan program on wheat will be liberalized to make lower grades of the grain eligible for loans.

Previously wheat grading below No. 3 was ineligible for loans. Spring wheat of No. 3 grade was eligible only when stored in commercial warehouses or elevators.

Loans now will be made on No. 4 grain provided it has all the quality of No. 3 except as to weight.

The loan rate on No. 4 winter wheat will be 5 cents a bushel less than the previously announced rates on No. 3 of the same class. The rate on No. 4 spring wheat will be 10 cents a bushel less than established rates on No. 1 wheat of the same class.

For example, No. 1 wheat would be eligible for a loan rate of 64 cents a bushel at Kansas City. The No. 2 loan rate there is 72 cents a bushel. The rate on No. 4 northern spring wheat would be 71 cents at Minneapolis. The No. 1 northern spring rate there is 81 cents.

The rate on wheat stored on farms would be the freight charges and 4 cents handling charges less than the rates at the terminal market serving the area in which the farm wheat is stored.

The rate on No. 3 spring wheat stored on the farm will be 5 cents less than the rate on No. 1 spring wheat stored at the same point.
