BARGAIN DAYS CLOSE SATURDAY! JUST TWO MORE DAYS.

HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people blame on cold or strain are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waste. Frequent or scanty passages with stinging and burning shows there may be something wrong with your kidneys or bladder. If the 15 miles of kidney tubes and filters don't work well, poisonous waste builds up in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

What a pity!

BACK in Lamar, Missouri, high school youngsters labored for a week building a record-breaking pile of boxes and scrap wood for a bonfire on the occasion of their first football victory. When the morning of the fateful day arrived, the pile had disappeared—some practical soul having figured that it would make an even more imposing fire in his kitchen range.

If you're comfortable and well-fed, you'll think the guy ought to be run down and thrown into the river. But if you're cold and a little hungry, you'll be inclined to agree that he had a good idea.

So much, in his world, depends on the point of view.
