SIX LIERS DIE IN ARMY BOMBER'S CRASH

Editorials ON THE Day's News

By FRANK JENKINS
PASTE this in your hat:
Among the developments of the not too distant future will be old-age pensions on a scale LARGER than the present scale.

IN giving thought to old age pensions, we must get rid of the notion that they will in some mysterious manner STIMULATE PROSPERITY.
They won't.
Prosperity is created only by increased production—either through more work or more efficiency.

PENSIONS for the aged mean simply that money that is EARNED by one group of the population is SPENT by another group.
If you earn money and give it to your neighbor to spend, the prosperity of the community won't be stimulated any more than if you spent the money yourself.

IF old age pensions are to be sound, they must be recognized clearly for what they actually are—which is deferred payment for WORK ALREADY DONE.
The worthy aged have done their part. They have produced in their producing years. In an enlightened state of society (such as ours professes to be) those who have

Most recent issues of the leading Swiss, Danish, British, French, Belgian, Norwegian, Swedish, Rumanian, Yugoslav, Czechoslovak, Polish and Vatican City dailies were confiscated.

BERLIN, Nov. 19.—(AP)—The name of Jehovah was ordered erased from Protestant churches throughout Nazi Germany today by President Friedrich Werner of the supreme evangelical church council.
His order said the name of the God of Israel must be obliterated wherever it is displayed in Protestant churches. The names of Jewish prophets—all prophets of the Old Testament—also were ordered erased.
This action was regarded as a sequel to threats in various parts of Saxony that Christian churches allowing these names to remain would be burned as were synagogues in the wave of anti-Jewish violence which swept Germany last week.
