Student Patriotism

A POLL of twenty-five men's living organizations at the University of Oregon showed a very healthy student sentiment toward our national defense. There have been times when little radical organizations in some of our American colleges have preached that the way to avoid war was to be defenseless and the way to avoid burglaries was to leave the doors unlocked.

This poll at Eugene, however, showed that almost to a man the students would fight in defense of their country against aggression by dictator nations. We are all pacifists, if by pacifists you mean persons who abhor war, but abhorring war isn't going to prevent war as long as great roving bands of international brigades are at large.

We are glad that that does not represent student sentiment. When a peace-loving nation wants to be let alone by envious and enslaveless foreign powers it can't just sit around under its favorite cork tree smoking the flowers like Ferdinand the bull. That is to invite the very war it hates. Size is no protection. The brigand nations are forced by their rulers to pay a prodigious price for their wars.

What One Industry Faces

FOR some time there has been considerable unemployment in the Pacific Northwest lumber producing areas. Mills have been operating only a fraction of their rated total capacity. Lumber is a product that is created by labor. The cost of lumber or paper pulp is more than 95 per cent paid to labor.

Furthermore there is ample forest area in this country to provide for our needs. Yet a press release from the bureau of foreign and domestic commerce reveals that fact that more than a quarter of a BILLION dollars worth of forest products were IMPORTED into this country during the first 10 months of this year.

The seven states of the Big Dipper are about 70 light years away. Light, which travels at a speed of 186,000 miles per second, would be 70 years in reaching our eyes from those stars.

Editorials on News

There are many rooms, comfortably furnished and heated in winter. In the average postoffice building. In theory, these rooms belong to you. At least, they belong to you as much as to anybody else.

If the railroads are eventually taken over by the government, they'll be run much as they're run now—only LESS EFFICIENTLY. If you want to ride on them, or ship goods on them, you'll pay for the service, just as you pay for it now—except that you'll probably pay more.

TREADWAY URGES GOP TO BE LIBERAL

WASHINGTON, Dec. 3.—(AP)—Representative Treadway (R-Mass.) said today that republicans in congress, not the republican national committee, would chart the party's course between now and the 1940 election.

Discussing the recent meeting of the party's national committee, Treadway, ranking minority member on the House ways and means committee, expressed belief "too much emphasis" had been placed on the idea the committee directed the policies and actions of the republican minority in congress.

Speaking of the content for the house minority leadership, Treadway indicated he was opposed to the candidacy of Rep. James W. Wadsworth of New York.

CHANGE IN PARDON POWER SUGGESTED

SALEM, Dec. 3.—(AP)—Taking the pardoning power away from the governor and placing it in a judicial state parole and probation commission was suggested at a meeting of Governor Charles H. Stark's special parole and probation committee here today.

The committee, of which Dean Wayne L. Morse is chairman, was appointed by Governor Stark several months ago to conduct a study of the Oregon parole and probation system. The committee will report its findings at the 1939 legislative session.

The argument was advanced that under the existing law a large part of the governor's time is consumed in hearing prison cases. Under the proposed new setup all pardons and paroles would be issued by the parole and probation commission.

Fascism Trend In South America Is Menace to U. S.

By JOHN T. FLYNN, NEA Service Staff Correspondent. NEW YORK, Dec. 1.—As the United States turns her eyes toward South America in regard to the President Roosevelt calls American continental solidarity, there is one danger which seems to be overlooked.

One of the commonest of human frailties is to find in the poverty with which men live from many parts into the arms of real ones. At present an immense noise fills the ears about the German menace in South America. This is set up as a grand enemy to be met and conquered. And so much energy is expended in meeting and overcoming this foe that we give no thought to the great serpent coiled in the bushes which is the real danger.

The trouble in our South American approach is to be found in our constant use of the terms "Nazism" and "Fascism." They are continually used interchangeably. Hence the discussion as to whether South America has gone mad or fascist becomes obscured in a cloud of fog.

Fascism trend noted. South America is not mad, it is not going mad and probably never will be. South America is going fascist.

Fascism represents a new approach to the solution of the difficult problems of capitalism. It is a form of social government in which the state attempts to organize and plan and control the economic life of the people.

SCOUTS OFFER AID IN YULE ACTIVITY

Troops Also Adopt Budget System, Hear Details of Three-Day Camp.

Members of the committees and the scoutmasters of the Legion post and Methodist scout troop met Thursday night at the chamber of commerce office to plan for future interests of their troops with R. W. Doman, field scout executive of the Wallamet area council. Both troops were favorable to helping in every way possible the local health officers in the dispensing of Christmas seals and promotional materials, and in assisting local women in their toy repair project and distribution of said toys prior to Christmas.

Objectives were adopted by each troop to establish and maintain a budget system as a means of emphasizing the value of good thrift habits, better use of Boys' Life, the official magazine for boy scouts, to help the leaders in their effort to emphasize the ideals and objectives of scouting through an enriched program.

Scouts intending to participate in the council winter camp at Lake Odell will be asked to make prompt application in order to assure themselves accommodations. The fee for participation in the three-day camp to be held during the holidays, including rail transportation from Eugene and return and meals and lodging for the period will be \$5.85. It was indicated that about 8 or 10 scouts from Roseburg are planning to attend the camp, although no troop promotion is being given except as the boys themselves make inquiry.

American Legion troop, No. 7, is planning to hold a "wing-ding" in the near future, involving investing new scouts into the troop and an evening of fun and banquets. New scouts now entering troop 7 are Elmer Giles, Robert Corby, Alvin Hills, Edward Jones, Victor Roberts and Wm. Stilling. This troop is now being led by W. F. Downer and Dale H. Owen with J. L. Saunders, Dr. H. A. Single, Bruce A. Mellis and Harry G. Howe as the troop committee. Troop 4, sponsored by the Methodist church is led by George Churchill and Edward Smith, the committee being made up of S. Raynor Smith, chairman, E. A. Britton, W. H. Gerretsen, Alvin Knudtson and Earl Wiley.

IRISH FAVORED TO DEFEAT TROJANS

LOS ANGELES, Dec. 3.—(AP)—Gunning for its ninth consecutive victory and the mythical 1938 national football crown, Notre Dame clashes today with the Trojans of Southern California, the far west's twice-beaten Rose Bowl representatives, before an expected record crowd of 100,000.

The fight's Irish, rated the best team to come out of South Bend in eight years, were slight favorites to send Troy down to defeat, but this thirteenth annual battle held promise of matching some of the close finishes, upsets and spectacular performances of many previous encounters between the two inter-sectional foes.

Rival backfield talent was rated about even, with Notre Dame's crew held the more consistent, Southern California's likely to get hot and break up the ball game. Notre Dame seemed to have an edge in the line, with its all-American line Belnor at left tackle expected to outline either of Troy's candidates.

Notre Dame has won seven games in the series, Troy four and the 1936 engagement ended in a 13-13 tie. Winding up one of the toughest schedules in the country, the Irish have scored 149 points to opponents' 26 in eight games, while U. S. C. in nine games has scored 152 points to 82.
