Education Costs

WHILE the legislature is making
provision for the carrying on
of all the state's functions and en-
terprises, one of the most impor-
tant of which is higher education,
it might be well to refresh our
minds on just how the state sys-
tem of higher education is financ-
ed. Included in this system are
the University of Oregon, Oregon
State College, University of Ore-
gon Medical School, three Normal
Schools, eleven agricultural ex-
periment stations, and state and
federal cooperative extension
work. It is a vast enterprise for
the benefit of all the people of the
state and it costs a lot of money.

The main costs of the system,
under Oregon law, is carried by
what is called the millage tax,
a certain per cent of the general
tax collected by the state. This
millage, determined several years
ago when institutions were small-
er, varies and the difference be-
tween the millage funds and the
actual cost of the system is ap-
propriated at each session of the
legislature.

For the biennium 1937-1938—
the legislature meets only once in
two years—it required an appro-
priation of \$400,000 in addition to
the millage funds. It is estimated
that for 1939-1940 it will require an
appropriation of \$664,355 to main-
tain the institutions of the system
on the present level with no ex-
pansion. Here are the items:

1. To comply with the mandate
of the last legislature that salaries
of state employees, cut during the
depression, be restored will take
\$125,000 for the two years.

2. For repair of buildings ne-
glected for lack of funds during
the past seven years, and for re-
placement of obsolete instruction-
al equipment, \$200,000.

3. Required to care for in-
creased enrollment—it has in-
creased 100 per cent since 1933—
1934—\$200,000.

4. Amount necessary to con-
tinue federal cooperative exten-
sion work on the present level,
\$69,355, this being due to discon-
tinuance of certain federal appro-
priations.

We have the word of the offi-
cers of the system that this ap-
propriation for the work of the next
two years is the minimum for
maintenance on the present level,
and they add regretfully that it
will be impossible to undertake
any expansion of services during
this biennium.

Financially speaking, the gov-
ernment of the United States is a
cute little enterprise. During the
coming year, according to the bud-
get message, it will cost \$21,642-
\$45 PER DAY to stay in busi-
ness. And during that time we
shall be going further in debt to
the extent of one million dollars
EACH DAY!

One thing about the recent ap-
pointments made by the president,
they certainly get talked about.
What, for example, do you feel
like saying about a cabinet which
includes: Madame Perkins, Harry
Hopkins, Harold Ickes and Frank
Murphy?

Editorials on News
(Continued from page 1.)

the poor).
In fact, he says, there has been
remarkably little variation
through the years in the distribu-
tion of wealth in the United
States, and what is true of the U.
S. in this respect is true of Eng-
land, France and Germany.

LOOKING for the reason for

to the conclusion that distribution
of wealth must be based upon DIS-
TRIBUTION OF MONEY-MAK-
ING ABILITY, which is appar-
ently fairly constant from generation
to generation in all populations.

THAT is to say, if you took all
the wealth in the world and
divided it equally among all the
people in the world TODAY, the
smart ones would have the bulk
of it again before the year is over.

IT'S pretty hard to change hu-
man nature. It's much easier to
CHANGE YOURSELF. If you
want wealth, you'll get farther by
BECOMING SMART YOURSELF
than by trying to make the world
over.

THE 76th congress assembly,
chooses its presiding officers,
and perfects its organization in
preparation for the work of the
coming session.

That is ROUTINE news.
THE incoming congress is clear-
ly in a mood to cease being a
rubber stamp and to reassume its
constitutional function as a co-
ordinate branch of our govern-
ment.

That is BIG NEWS.
THE United States of America
(which means not only the nation
but EVERY CITIZEN there-
of) is suffering today under cer-
tain serious handicaps, including
a heavy national debt which must
be either paid or repudiated and
taxes so burdensome as to take
from industry money that might
otherwise go into wages.

If congress had not surrendered
its constitutional function six
years ago, we might have been
spared these handicaps.
IT is true that nothing is to be
gained by crying over spilled
milk. But it is also true that we
can't hope to make progress un-
less we are able and willing to
profit by the mistakes of the past.
If the 76th congress will waste
no time at all in crying over the
milk that has been spilled but
will devote a great deal of time
and honest effort to profiting by
the mistakes of the past, the na-
tion's future will be very much
brighter indeed.

FOR many, many years (not
necessarily just the six years
of the New Deal) we have been
governed by politicians. If, for
a few years now, we can be gov-
erned by STATESMEN, we shall be
amazingly fortunate.
It is the hope that among its
members enough statesmen may
be included to constitute a work-
ing majority that makes the as-
sembling of the 76th congress
such an important event.

BARBS

From news story of Cleveland,
O. murder trial: "she told Stan-
ley Sukowski she had killed her
husband only to frighten him."
Scared to death, eh?

Nazi Propagandist Goebbels is re-
ported in bed with a tummy ache.
Germans will probably be told Har-
old Ickes put something in his
soup.

Surgeons announce a new de-
vice for piping light into the body
as an aid in surgery. We know of
a few sets of brains that could use
a piping system like that.

A British scientist sees a return
to rigid world economy in 1939.
Apparently he never heard of the
week after Christmas.

Boat hunting is making a come-
back in the southern states. It
shows any results we suggest the
sport be extended to the nation's
pavement.

Jitterbug dances threaten col-
lapse of buildings in Manhattan.
Minn. the city engineer warns, if
they can just make certain the jit-
terbugs are in the building when
it collapses it's okay with us.

A Harvard geologist says the
earth requires 56,000 tons of met-
eorite dust daily. If Europe's di-
ctors hear about it they'll be in-
demanding a few tons.

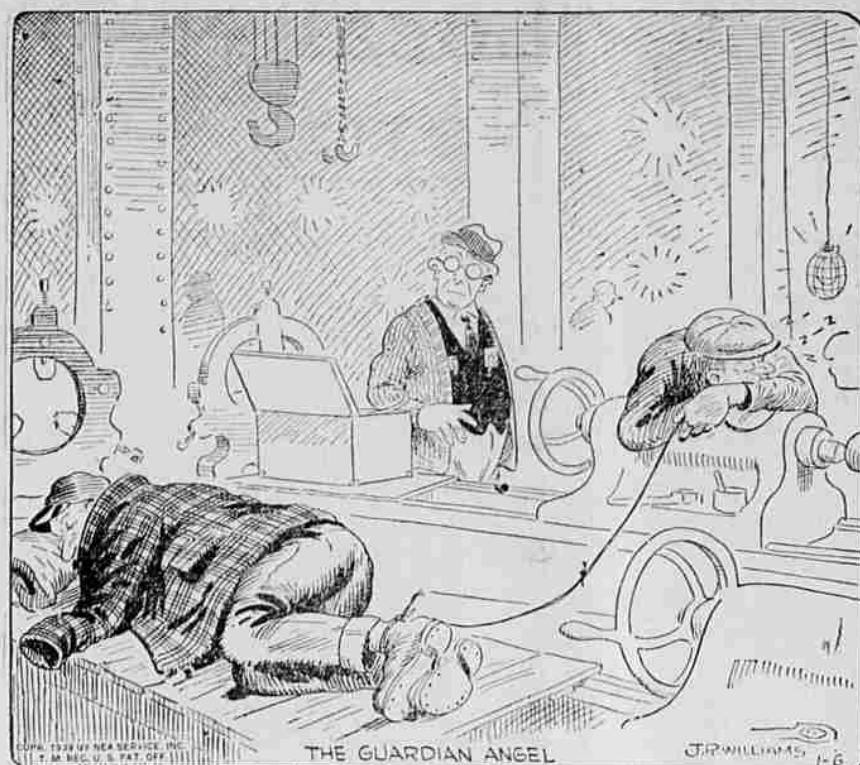

The shah of Persia has severed
diplomatic relations with France
because of a joke about a cat in
French magazines. Oh, please!

War Won't Be All
Additional activities include ex-
tensive gunnery practice and the
scheduled visit of the fleet to
New York for the World's Fair
opening in April.

Altogether the West Coast ves-
sels will be in the Atlantic about
five months. Some may be shifted
to the Atlantic squadron, recently
put under the command of Ad-
miral Claude C. Block. About 32
combat ships of the Pacific fleet,
already moving into the Atlantic,
will remain behind—some for
overhauling.

The mock war will take naval
battleships over an area extend-
ing from Cuba southeast to Brazil
and the equator. Huge patrol
bombers will soar over South
American shores—demonstrating
what the United States can do in
the so-called "united defense"
of all the Americas.

LOCALLY-WED PAIR
IN DIVORCE SUIT
COQUILLE, Jan. 5.—Alleging
cruel and inhuman treatment,
Charles R. Murphy, tonight, today
has in life in the Cook county cir-
cuit court a petition for a divorce
from May Murphy.

Plaintiff seeks custody of the
couple's two children, ownership of
the couple's real property and title
to household goods and family
auto.
The couple was married Nov. 23,
1929, at Roseburg.

Murphy alleges defendant was
quarrelsome several times threat-
ened him with a butcher knife, and
demanded one-half his pay check

U. OF O. DEAN FINED
FOR DRUNK DRIVING

EUGENE, Jan. 5.—(AP)—Enter-
ing a plea of guilty to the charge
of driving while under the influ-
ence of intoxicating liquor, John J.
Landsbury, dean of the school of
music at the University of Oregon,
was fined \$200 in police court here
today. His driver's license is auto-
matically suspended for one year.

Dean Landsbury did not appear
in court, his plea being entered by
his attorney.

The dean was charged in a com-
plaint signed by Chief of Police
Carl Bergman of driving while un-
der the influence of intoxicating
liquor the evening of December 30,
1938. He is alleged to have crash-
ed into the car of Maurice Stauffer
and shaking up Mrs. Stauffer, an ex-
pectant mother.

After hitting the Stauffer car, the
Landsbury machine proceeded to
the railroad crossing at Broadway
and Alder where, apparently con-
fusing the railroad tracks for the
street, the machine was driven for
a distance of several hundred feet
along the ties, finally stalling near
the eleventh street crossing.

MOONEY HEARING ON
PROGRAM OF KRRR
The Roseburg radio station
KRRR, through the Mutual-Ton
Lee Broadcasting system, will
carry to radio listeners Saturday
a portion of the hearing being held

the matter of a pardon for Tom
Mooney, convicted Preparedness
day bomber, whose 22-year strug-
gle for freedom is expected to
end this week through action by
Governor Culbert L. Olson.

The Mutual network will carry
the voices of Mooney and Olson
in a special broadcast direct from
the state capitol at Sacramento
between 10 and 10:30 a. m., Sat-
urday, according to Marshall Pen-
gro, KRRR manager.

MARAUDING COYOTE
NEAR ELKTON SLAIN

ELKTON, Jan. 6.—A sheep kill-
ing coyote which has been causing
much destruction on the Oliver
Haines ranch here was trapped
Tuesday by John Sawyers. Mr.
Haines has lost several head of
sheep and goats during the fall
months. Mr. Sawyers has been very
successful in trapping several of
the animals responsible for some
of the losses.

EXAMS FOR DRIVERS
IN ROSEBURG SET

Examinations will be conducted
in Roseburg Tuesday and Wednes-
day, Jan. 10 and 11, for applicants
for permits or licenses to drive ve-
hicles. The examinations will
be conducted at the courthouse by
Glenn Brown, examiner of operators,
and chauffeurs for the southern
Oregon district.

Many hotels, apartment houses,
and office buildings in New York
City have no 13th floor. The floor
