The lumbermen have coined the slogan: "Timber is a crop-the harvest is homes." It is a good alogan for it is not only catchy but it in true.

The answer is yes, and NO. It is ypical of a PART of Los Angeles. Los Angeles is the cheapest city

Los Angeles is the cheapest city in America. Or it is the most ex-pensive city in America. Or it is just about what you are used to-neither cheap nor high-priced. Los Angeles is EVERYTHING. It has some of the direst poverty on earth. It has some of the greatest wealth on earth, it has a vast amount of the comfortable in-be-tween kind. **F** you come to Los Angeles with period.

IF you come to Los Angeles with only money enough for the bare essentials of living, it has what on need. If you come moderately heeled and able to pay for ordinary omforts and a few simple luxuries.
