

FEDERAL EMPLOYEES RECEIVE TAX STAY

Oregon Not Likely to Levy on Pay Earned Prior to January 1, 1939.

SALEM, April 12.—(AP)—Federal employees in Oregon apparently were saved today from paying state income taxes on salaries earned before last January 1, although the state tax commission withheld final decision until it receives a copy of congress bill exempting these employees from being taxed retroactively.

The bill, tax commission attorneys said, would prohibit retroactive taxation before January 1, unless it was amended at the last minute. It would prevent the state from retroactive taxation of federal salaries, and make the same rule apply to government taxation of state salaries.

Answering arguments that the commission should tax federal salaries for several years back, the commission said it could not be done under the new bill, which is on President Roosevelt's desk. However, the commission agreed there was a legal question involved over whether the government had a right to tell the state it couldn't tax federal salaries retroactively.

HELP KIDNEYS PASS 3 LBS. A DAY

Doctors say your kidneys contain 15 miles of tiny tubes or filia which help to purify the blood and keep you healthy. Most people pass about 3 pints a day or about 3 pounds of waste.

Frequent or steady passage with astringent and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the cause of nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

You Are As Old As Your Feet

REAL LIFE YOUTHS STRESS NEW ADS

Photographs from real life, showing children of school age enjoying the benefits of wholesome foods, feature the series of advertisements now appearing in News-Review in behalf of Honey Maid Graham crackers.

Increasing importance in recent years has been placed by leading advertisers on the stronger appeal of life-like photographs of living models. In this new series typical boys and girls between the ages of 8 and 15 portray the appetite appeal of graham crackers with such wholesome companions as milk, cereals, fruits and other foods. Food authors, as part of the series, express their approval.

In connection with this new campaign on Honey Maids, a product of the National Biscuit company, Roseburg grocers are featuring displays in their stores.

U. S. BARTER PLAN RAPPED BY NAZIS

BERLIN, April 12.—(AP)—The Frankfurter Zeitung charged today that the United States was showing plainly that it desires to give up the principle of economic neutrality.

This was shown, the newspaper declared, in the plan of Senator James P. Byrnes (D., S. C.) for trading American cotton and wheat against tin and rubber controlled by western European nations.

"The state department has hitherto declined in principle to trade grain and cotton against German agricultural machinery," the newspaper said.

"It's willingness now to conclude agreements of this kind with the western powers shows clearly that the United States wants to give up economic neutrality."

"To please the English a trade of goods of the kind that was denied to Germany is arranged."

"After all, however, this is not anything new, for the American neutrality policy has in every respect become more and more threadbare."

HOUSE VOTES FHA POWER EXTENSION

WASHINGTON, April 12.—(AP)—The house passed today a bill extending for two years the powers of the federal housing administration and raising from \$3,000,000,000 to \$4,000,000,000 the amount of mortgages it may insure.

The FHA, seeking to stimulate the flow of money into construction industry and provide low cost home financing, insures loans by private institutions for home building and renovation. Unless congress continues its powers, they expire on June 30.

Before passing the bill on a voice vote, the house accepted an amendment by Representative Cochran (D., Mo.), designed to prevent what he said was the writing up of land values by promoters of large apartment projects. He cited what he said were two instances of such write-ups in St. Louis.

Sponsors of the bill argued the provision would kill the FHA's program of adding in the financing of big apartment projects.

The roll call vote on the Cochran amendment was announced as 199 to 142.

Barter Plan Approved

President Roosevelt today approved the proposal announced by Senator Byrnes (R., S. C.) to exchange American cotton and wheat for rubber and tin had his general approval and he hoped it would go through.

Byrnes proposed the exchange be made with Great Britain, the Netherlands and other countries to relieve United States agriculture surpluses and supply the country with materials which would be needed badly in time of war.

Mr. Roosevelt said at his press conference he thought the state department would begin negotiations within the next few days looking toward such exchanges.

Asked whether this government would be willing to enter into similar barter agreements with Germany, Italy and Japan, the president replied he hadn't the faintest idea.

In response to a question as to whether the barter plan would replace a proposal he made recently for exporting surplus cotton by means of a federal subsidy, Mr. Roosevelt said it would supplement but not replace that plan.

MAGAZINE SALES NET JR. HIGH \$125

At the completion of the recent magazine subscription drive, the Roseburg Junior high school had total sales of \$397.50, received from 250 orders taken for various magazines. It was announced today. Of this amount, the Junior high is given a commission of \$153.95. After the costs of the merchandise and the costs of advertising are subtracted, a profit of approximately \$125 is netted.

This amount may not be sufficient to take care of buying a new stage curtain, but eventually new stage equipment will be purchased and this money will go towards that project, school officials report. Also some of it will very likely be used for the purchase of new library books for the school. Home room winners in the contest included for the seventh grade, Hod Turner's group; eighth grade, Anoka Coates' home room; ninth grade, Scott Williams' class. Each home room winner was awarded a five pound box of candy. The highest individual award went to Novitt Smith, who received a knit slipper sweater and a gold seal certificate of achievement. Second highest honors went to Shirley Carter, who also received a gold seal certificate.

NEWS OF PAROLES TO BE GIVEN OUT

SALEM, Ore., April 12.—(AP)—A new policy whereby the state parole board will give out news of paroles for prisoners in whom there is a state-wide interest was announced today by Governor Sprague.

Heretofore, the board never has disclosed the names of prisoners receiving paroles, the theory being that these prisoners deserve a chance to start life anew without publicity.

The board will continue to keep secret the names of all prisoners who are to come before the board. After the board meetings, held each month at the state prison, the board will disclose the names of the most prominent prisoners receiving paroles. A prisoner is eligible for parole if he is a first offender and has served one-third of his sentence.

The board will meet tomorrow. Governor Sprague is expected to announce soon the new board which, starting June 14, will fix minimum sentences of new inmates.
