ROSEBURG, ORE.

THE WHY OF DOUBLE YOUR MONEY BACK

WHY?...

For 65 days, Richfield and other automotive engineers tested 16 different types of gasoline, many of which were popular competitive gasolines. In most of the types of cars on the road today.

They recorded with precision instruments all types of driving—highway—city—mountain and desert. One of the new formulas developed in Richfield's great new refinery amazingly outperformed all 15 other gasolines in all makes of cars. That's why we can guarantee that no other non-premium gasoline can touch the performance of this new miracle fuel.

WHY—IF IT'S SO PERFECT A FUEL SHOULD ONLY RICHFIELD HAVE IT?

BECAUSE we've just completed a new refinery costing millions of dollars and designed to produce this more costly formula—economically. Most gasolines are made of not more than three ingredients—this miracle fuel is a blend of six. We assured ourselves by these conclusive tests that this new ALL-TIME HI-OCTANE would out-perform other non-premium gasolines in all makes of cars and trucks under all conditions. We had to

make some startling offer like a 200% guarantee to encourage some folks to try it just once, because we knew in most cases that even a child would be able to tell the difference. Our dealers report over 100,000 new customers who are praising this new miracle fuel.

JUST WAIT TILL YOU TRY NEW ALL-TIME HI-OCTANE!
