mess for a LONG, LONG time. It will probably be in a mess for a long time to come.

THOMAS JEFFERSON also wrote: "Our difficulties are indeed great if we consider ourselves alone. But when viewed in comparison with those of Europe, they are the joys of paradise."

When Jefferson wrote: "Compared with all nations, all ages with none, should be our motto," he spoke for OUR DAY as truly and as wisely as for his own.

CLUBBERS ARRIVE AT SUMMER SCHOOL

CORVALLIS, June 6.—(AP)—An 18-car special train bringing more than a thousand club members from northern and eastern Oregon for the 141 club summer school at Oregon State college yesterday boasted the early enrollment to 2100, a record figure.

The train, made up in La Grande, picked up club members from many northern Oregon points, took on additional cars with Columbia, Multnomah and Clackamas delegations at Portland, stopped for other members at Salem and two more cars of members from Lake and Clatsop counties at Albion.

CALIFORNIA NUT CROP HEAVIER

LOS ANGELES, June 6.—(AP)—Early reports of bumper crops of California nut growers are somewhat exaggerated, but the crop probably will be 15 per cent heavier than last season's production.

FARMERS TRY HYBRID CORN

ST. LOUIS, June 6.—(AP)—Farmers are conducting demonstration plantings this season to compare hybrid field corn with varieties that are commonly grown in this country. Arrangements for this year's trial work were made by County Agent O. S. Fletcher, who obtained the hybrid corn from the experiment station and distributed it to the individual farmers. Accurate records will be kept in 1939 and then compared with comparison with standard varieties.

OUT OUR WAY

PROGRESS SHOWN IN CHURCH REPORT

BOSTON, Mass., June 5.—Thousands of Christian Scientists meeting in this city today, challenged a troubled world to change its perspective from a material to a spiritual basis in its search for relief from pressing economic and political problems.

The occasion for the great influx of the followers of Mary Baker Eddy was the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, which was held at an early hour this afternoon light up to the center balcony under the very dome of the great edifice. Through an entire afternoon's round of addresses and reports from the field, the power of the Christ, Truth, to lift individuals above the ills of human sense was acknowledged and this same spiritual power was recommended for the healing of the nations and the establishment of a permanent world peace.

Looking beneath the surface ripples of troubled international relationships appears to the world today, The Christian Science board of directors saw the deepening currents of spiritual progress "keeping alive the vital realization of spiritual truth which Christian Scientists must always nurture, whether the work be about the specific line of healing or in the important channels connected with home, church, business and government."

OKLAHOMA WILL NOT PLAY OREGON

NORMAN, Okla., June 6.—(AP)—University of Oklahoma's efforts to schedule a 19th football game for the 1939 season appeared bogged down completely today and officials planned no further action. Norman Stadium head and director of athletics, had little to say about his unsuccessful efforts to gain approval for a game with the University of Oregon.

Daily Devotions

DR. CHARLES A. EDWARDS One of the most prevalent facts of life is its uncertainty. Life is so full of swift and sudden changes. The universe is so immense and the forces beyond our control are often quite disturbing. We seem so helpless and alone. We make well laid plans and they are frustrated. We seem on the way to economic security and then the bank fails, or the market collapses. Before us stretches a clean and shining track, and then misfortune overtakes us, everything becomes dark about us and we know not what to do. Our need is desperate, then comes to our mind, "When thou passest through the waters I will be with thee and through the rivers they shall not overflow thee. When thou walkest through the fire thou shalt not be burned, for the Lord thy God am with thee, whosoever thou goest. Nothing is a greater certainty, than the fact that God is with us, and "all things work together for good to them that love God." Help us our Heavenly Father, to always keep our eyes on Thee. May we never waver in reliance upon the spiritual certainties in our world, Amen.

STRONG IMPROVING FROM INJURIES

J. W. Strong, who suffered by injury Sunday in a fall at Corvallis, is reported to be improving satisfactorily in a Corvallis hospital and is expected to return home the latter part of the week. He was an assisting Miss Helen Conroy of this city with her packing, preparatory to bringing her home from Oregon State college, where she had been attending school, when he suffered a dizzy spell in his fall. He suffered a badly cut month, and 12 stitches were necessary to close the wounds. He also suffered in July to one eye. His daughter, Miss Gladys Strong, is with him, and her nurse-staff here is closed until her return.

BRIDGES PITCHES SHUT-OUT GAME

Yanks Fail to Score for the First Time in a Year.

By BILL WHITE (Associated Press Staff Writer) If Detroit's Tommy Bridges has any political leanings, this certainly is an opportune time for him to announce for office.

That four-hit 6-0 pitching masterpiece he turned in yesterday against the Yankees—the first time they have been shut out since the Browns did it June 18, 1938—has made him baseball's man of the moment. The votes he'd get from other members of the harassed American league pitching corps would give him a pretty fair head start on any other candidate.

The downfall of the Yankees (actually their eighth loss in 41 games) added some fire to what Coach Del Baker of the Tigers has said publicly—that he'd battle 'em to the last ditch and concede 'em nothing.

While Menars, Greenberg, Higgins, Fox and Rogell were reviving hopes of making a race of the American league, the siege runs of the National league, the Cincinnati Reds, boomed ominously again.

As Bucky Walters was limiting the New York Giants to seven hits his mates were kicking three-Giant hurlers all over the Polo Grounds, fashioning 16 hits in an impressive 8-2 victory. It was their 18th in their last 22 starts.

The Red Sox couldn't solve the offerings of Cleveland's Johnny Alton. Johnny scored a 7-5 victory by keeping most of 13 hits on the scratchy side. He got some help from Earl Averill who banged out his first homer of the season, with two aboard.

The third-place White Sox took a cue from the three-hit pitching of Jack Knott and whacked out a 12-1 victory over the money-hungry Athletics. A couple of homers, by Gee Walker and Ollie Bejma, helped Jack to his first victory in five starts.

Washington and the St. Louis Browns were idle. The seven-hit pitching exhibition, put on by Brooklyn's Vito Tamulis was good enough to pace the flat-batters to a 6-2 win over the Pirates from Pittsburgh.

The St. Louis Cardinals weren't treated any better. Max West and Rookie Eddie Miller helped themselves to three homers (West got two) and paced the Boston Dons to a 10-1 victory.

Larry French, Charlie Root and Gene Lillard of the Chicago Cubs were punched around for 13 hits by the Phillies, enough for an 8-7 Philadelphia victory. French was charged with the loss. Dizzy Dean pitched the eighth and didn't allow a hit.

Applications may be obtained at offices of sheriffs, police chiefs, examiners from the secretary of state's office or from the motor vehicle operators' division at Salem. Operators who had not yet sent in their applications are urged to do so at once in order to avoid inconvenience to themselves caused by a last-minute congestion which might delay service in the motor vehicle operators' division.

Bellview Club to Meet—The Bellview club will meet at two o'clock Wednesday at the home of Mrs. Robert Huff, instead of at the Clyde Kester home as previously planned. Members have been asked to bring either cake or cookies to the meeting.

CELLAR SERIES IS ON AT SACRAMENTO

Beavers and Senators Meet This Week to Settle the Issue.

Portland and Sacramento, which have been trading places with each other in the Pacific Coast league baseball basement virtually since the season opened, will try to settle the issue this week in a seven-game string at Sacramento starting tonight.

Sacramento is in the cellar by only a half game after losing last week's series to second-place Seattle, four games to three. Portland edged out San Diego by the same margin.

Hollywood's Stars take on the league-leading Los Angeles Angels at Los Angeles this week, while Oakland plays San Diego at the border city and Seattle meets San Francisco at Seals' stadium.

The Oakland-San Diego series will go nine games in six days, starting with a double-header today. The clubs have two postponements to play off. Oakland split an eight game series with Los Angeles last week.

W. C. Tuttle, league president, leveled a fine of \$200 on Chalmers "Bill" Cissell, veteran second baseman for the Hollywood club, and placed him on probation for an unannounced time last week Tuttle suspended Cissell but later rescinded the order.

The action followed an interview between Cissell and an Oakland sports writer in which Cissell was quoted as saying George Hildebrand, former major league umpire, would be a better Coast league president than Tuttle.

Battling averages, released today, showed Los Angeles still leading in team batting with a percentage of .303. San Francisco, Hollywood and Seattle follow in that order.

Dominic Dallessandr, San Diego outfielder, replaced Spencer Harris of Hollywood, at the top of the individual batting column with an average of .330 to Harris' .325 per cent. Bill Swenson, of Portland, has .374 and Dominic Di Maggio of San Francisco .372.

BLACK DISEASE OF SHEEP DESCRIBED

The first Oregon publication dealing extensively with Black disease of sheep has just been issued by the OSU experiment station, describing the work done by Doctors J. N. Shaw, O. H. Muth and L. Sorbott.

Black disease is one of four sheep diseases of which causative agents were isolated by workers at the Oregon experiment station for the first time in Oregon, in the last two years.

Black disease is about the only common name given for infectious necrotic hepatitis of Oregon sheep. This is not a new disease in Oregon but one for which the cause has not heretofore been known. An aerobic bacterium identical with one found by Montana workers and also appearing in England has been definitely established as the cause of this disease, which is definitely associated with fluke infestation. No satisfactory methods of treatment have been found, although considerable success has been achieved in preventing sheep at placed in by the use of anti-toxin (toxin). The new publication is station bulletin No. 269.
