REPUBLICAN FILIBUSTER KILLS DOLLAR PARING POWER

State Aerie of Eagles Elects Jack S. Greenwood President; Marshfield Wins 1940 Meet

Big Batch of Resolutions Disposed Of

Socialized Medicine Issue Sidetracked, Proposal to Establish State Paper Rejected.

The Eagles lodge of the state of Oregon, in its 24th annual convention ending here this evening, settled its two major issues with the election of Jack S. Greenwood of Gresham, president, and the selection of Marshfield as the 1940 convention city.

Other state officers elected were: Douglas Gillespie, Marshfield, vice-president.

G. W. Mason, Portland, chaplain. John Krohn, Roseburg, conductor. J. R. Voorhees, Portland, secretary. H. A. Ellsworth, Cottage Grove, treasurer. Roy Ellis, Coquille, trustee. Frank Seward, La Grande, inner guard. Nick Perera, Klamath Falls, outer guard.

A Warren Jones of Salem and U. S. Ballentine of Klamath Falls were chosen delegates from the Oregon state aerie to the Grand aerie convention.

Greenwood, the new president, has held the office of vice-president the past year. He succeeds Clarence A. Humble of Klamath Falls.

Medicine Issue Dropped

The question of state or socialized medicine will not be considered by the state organization, it was announced this morning. It was announced this morning that W. Mason, appointed chairman of a special committee to investigate the subject of state medicine following a resolution passed by the 1938 convention, this morning read a letter from Past Grand Worthy President Conrad H. Mann giving the grand aerie ruling that any such investigation and the adoption of a national program must be on a national basis. State organizations of the order shall take no position on the question of state medicine, the letter stated.

The special interim committee appointed to investigate the proposal that a state publication be established reported through its chairman, C. D. Long, that such a venture would be contrary to the rules of the grand aerie. The resolution

EDITORIALS on the DAY'S NEWS

By FRANK JENKINS

PRESIDENT ROOSEVELT is gloomy over the senate's action in stripping him of his power to devalue the dollar further. (Devaluing the dollar means lowering the gold equivalent of a paper dollar.) He says it is a blow at national defense because a country can be weakened by hurting its foreign trade.

WHAT he means, of course, is that the cheaper the dollar the easier it is to buy American, whereas the higher the dollar the easier it is to buy foreign.

THAT sounds complicated, but really isn't.

If you are a foreigner, selling your goods in America, you get your pay in dollars. With these dollars, you buy the money of your own country and with this money you buy your raw materials and pay your labor.

If dollars are HIGH, you buy MORE of your own money with them, thus LOWERING YOUR COSTS and making it possible to

Eagles' Choice for State President

President of the Oregon State Aerie of Eagles for the ensuing year will be Jack S. Greenwood, above, of Gresham. Mr. Greenwood, chosen at the convention election here this afternoon, has held the office of vice-president during the past year. He succeeds Clarence A. Humble of Klamath Falls.

Awards in Drum Corps and Drill Team Contests

Listing of places and scores in the Eagles lodge drum corps and drill team competition at Finlay field last night were announced as follows:

Ladies Drill Team—Salem, 99.75; Marshfield, 97.7; Portland, 97.3; Coquille, 96.1.
Junior Drum Corps—Marshfield, 87.7; Roseburg, 87.4.
Men's Drill Teams—Oregon City, 97.4; Gresham, 97; Portland, 96.9.
Ladies Drum Corps—Klamath Falls, 64.5.
Men's Drum Corps—Klamath Falls, 95.1; Marshfield, 92; Portland, 87.5.
Best Dressed Drill Team—(Men)—Portland; (Women) Portland.
Best Drum Major (women)—Esther Shepherd, Klamath Falls Auxiliary Drum Corps.
Best Drum Major (men)—Robert Elder, Klamath Falls.
Best Captain Ladies Drill Team—Suzanne Pruitt, Salem.
Best Captain Men's Drill Team—Al Nicholson, Portland.
Best Junior Corps Drum Major—Elaine Rusnow, Marshfield; Bill Black, Roseburg, tied.

Drum Corps, Drill Teams Put on Show

Colorful Competition for Prizes Entertains Big Throng; Ball Games, Banquet Today.

Visiting Eagles and their friends, nearing the close of their three-day state meeting in Roseburg, enjoyed a night-long frolic and tirelessly continued their celebration today, while in the lodge hall the delegates dug with determination into the pile of business remaining to be completed before afternoon final adjournment.

The annual competition of drum corps and drill teams furnished a colorful spectacle at Finlay field last night for a large and enthusiastic crowd of onlookers.

Twenty units participated in the brilliant exhibition, which was enhanced by the lights of the athletic

WINCHESTER BAY RESORT PROJECTED

Plans for development of an extensive recreational area at Winchester Bay were discussed today with the Douglas county court by Jack Dietl and Harry Marks of Redwood, who are members of the group sponsoring the project. The county court is requested to remove several old buildings and shacks on property held by the county through delinquent tax foreclosures and to lease the lands to the group on option to purchase. The county is also requested to permit the use of county-controlled tidelands for construction of a swimming basin.

The court was informed that it is planned to clean all buildings off the area located between the Winchester Bay dock and nearby rock point, north of the dock. The land would be platted, driveways constructed, and camp ground and tourist cabin facilities provided, according to the plan as outlined. Various playground and other recreational facilities are included in the development program.

Chamberlain Plans Move to Back Warning

Churchill, Eden, Critics of Nazis, May Get Cabinet Jobs to Emphasize "Force" Policy.

PARIS, July 1. (AP)—Sources close to the French foreign ministry said tonight that France had told Germany flatly that she would support Poland in case of any aggression against her eastern European ally.

LONDON, July 1. (AP)—Prime Minister Chamberlain today was reported considering the advisability of taking Anthony Eden and Winston Churchill into his cabinet to put weight behind Great Britain's warnings to Germany to keep her hands off Danzig.

Reconstruction of the government, which several political commentators said was likely to come soon, was described as part of Britain's concerted barrage to convince Reichsfuehrer Hitler that Britain means what she says about meeting force with force.

One political writer said flatly that the prime minister shortly would bring Churchill and Eden into the government as a gesture of strength of Britain's opposition to any use of force.

Churchill, war first lord of the admiralty, has been a constant critic of Chamberlain's policy of conciliation. Eden, Chamberlain's first foreign secretary, resigned from the government Feb. 20, 1938, in opposition to the attempts of the prime minister to deal with dictators.

Would "Impress" Hitler Both Churchill and Eden have been repeated targets of Nazi press attacks and both now are staunch supporters of Britain's policy of building up defensive mutual assistance alliances.

Several observers declared no

HAM-EGGS PENSION PLAN VOTE DATED

SAN FRANCISCO, July 1. (AP)—Governor Culbert L. Olson today set Tuesday November 7, as the date for the special election on the \$30-a-week "ham and eggs" retirement life pay plan.

In a statement outlining his reasons for calling the special election next fall, the governor expressed his belief that the measure, if adopted, "would fail to achieve its objective, would disappoint the hopes of its supporters, and would retard instead of aiding our progress to a better economic order."

The governor said he decided on a special election because the issues raised by the measure "are such that they would overshadow all other state issues, and there will be a number of them on the ballot at the general election in 1940."

Slain by Her Son

Beaten to death with a hammer last Saturday night by her 25-year-old son was the fate of Mrs. Margaret Campbell, 56, above, of Hollywood, Calif., teacher and former screen actress. The son, former law student and WPA crossing employee, admitting the slaying to officers, said he committed the deed because his mother threatened to have him placed in an institution.

LOCAL YOUTH AGAIN CAR THIEF SUSPECT

M. Carmichael, 18, Held in California, Also to Be Quizzed on Holdups.

Melvin Carmichael, 18, Roseburg resident, charged here with automobile theft, is under arrest at San Luis Obispo, Calif., following an alleged second interstate auto theft spree, Sheriff Percy Webb reported today.

The youth, early last year, was accused of the theft of a car at Crescent City, California. Upon his return here, the sheriff said, he admitted the crime and also told officers he had stolen a half dozen cars in Arizona and California previously.

Sentenced in May, 1938, to four years in the state training school, he was paroled after serving one year. He obtained employment as a cook at the South Umpqua Falls CCC camp, where on June 2 he was accused of stealing an automobile belonging to George Norman, a project foreman.

Holdup Angle Probed Sheriff Webb said he was told in a telephone conversation with San Luis Obispo authorities that the youth told officers he had picked up a hitch-hiker who stole Norman's automobile from him at San Francisco. In the latter city Carmichael is reported to have met a former associate of the state training school and told officers, according to Webb's report, that they stole a car in San Francisco and drove back into Oregon. An investigation is being made to determine whether they were responsible for two armed holdups in Roseburg June 12. They then went back to California, Sheriff Webb said he was informed and were arrested at Santa Barbara, where they broke jail.

The authorities at San Luis Obispo have been requested to learn, if possible, whether Carmichael and his unnamed companion were responsible for holding up John William Robertson and F. S. Monroe, railroad conductors, here the night of June 12. Robertson's credit card, stolen by his assailant, has been used at several Shell company sta.

CROWD HYSTERICAL AS ACTORS DEPART

NEW YORK, July 1. (AP)—Tyronne Power and his bride, Anna-bella, sailed on their belated honeymoon today and the departure turned out to be a field day for auto-graph hunters and movie fans, with license bumps, screams and scattered swoonings tossed in free.

The police estimated there must have been 10,000 persons on the pier when the Italian liner Rex sailed at noon, and that at least ten per cent of the crowd wanted nothing more than an autograph or two, a smile, a cheery greeting or just a glimpse of the couple.

So great was the crush that Power and his bride had to be smuggled on board.

Agreement Made, However, on Restoration Vote Next Week

Two Million Assured Jobs in Relief Bill

Roosevelt Signs But Lists Objections, Including Theater Projects' Abolishment.

WASHINGTON, July 1. (AP)—President Roosevelt's signature of the \$1,755,000,000 relief bill gave assurance today that 2,000,000 WPA workers would have jobs during the next 12 months.

The drastic measure, which underwent a revision in parliamentary polling and hailing between the house and the senate, was approved finally last night and signed by the chief executive shortly before the new fiscal year started.

Mr. Roosevelt expressed dissatisfaction with many features of the bill, but said that he obviously could not withhold his approval and "thereby stop work relief for the needy unemployed."

In a statement, the president said the bill "contains a number of provisions which will work definite hardship and inequality on more than 2,000,000 American citizens—people who through no fault of their own are in dire need."

Relief officials, fearful that the new appropriation would not be enacted before last midnight, had half of all operations until Wednesday. They estimated that the bill would provide an average of 2,000,000 jobs monthly, compared with an average of almost 3,000,000 during the last year.

Objections Listed, Mr. Roosevelt mentioned four specific objections to the bill:

1. A requirement that security wages in different localities shall vary no more than is justified by differences in cost of living, but that the current national average shall be maintained. This, Mr. Roosevelt said, probably would impose a reduction in the north and west and an increase in the south.

2. A requirement that project workers, except veterans, who have been continuously employed for more than 18 months shall be laid off for 30 days. A senate proposal which would have allowed some discretion was rejected.

3. A limit of administrative costs to 3.4 per cent. Mr. Roosevelt said that although the figure is about the present overhead, the cut in the total expenditure would raise it on a percentage basis if equal efficiency were maintained.

4. Abolition of the federal theater, which he said "singles out a special group of professional people for a denial of work in their own profession."

Past Opponents Agree, Mr. Roosevelt's criticism of the

Deadline on Mine Assessment Work Start Is Extended

WASHINGTON, July 1. (AP)—President Roosevelt signed yesterday a bill extending to noon, September 1, the deadline by which annual assessment work on mining claims for the current fiscal year must be started.

Federal mining laws require that \$100 worth of labor or improvements aggregating that amount be made each year on mining claims held by location in the United States and Alaska.

For several years past the requirement has been waived by special legislation.

PRESIDENT DOESN'T LIKE FARM BILL

Name Affixed but Hoist in Funds Without Tax to Meet Opposed.

WASHINGTON, July 1. (AP)—Armed with a \$1,194,498,633 appropriation approved reluctantly by President Roosevelt, agricultural department officials began today their greatest effort to improve farm conditions since the early days of the new deal.

Legislation providing the record-breaking sum for operations during the next 12 months was signed by Mr. Roosevelt last night. The total included \$773,000,000 for payments to farmers, including \$225,000,000 which was not in the president's budget.

It was this sum—for so-called partly payments designed to raise farm purchasing power to the pre-war level—that drew an expression of disapproval from Mr. Roosevelt. He has contended that such an expenditure should be accompanied by new taxes to provide the money.

In a statement made public shortly after signing the bill, he indicated he had refrained from vetoing the legislation because that would have caused the agricultural department and the farm credit administration to cease functioning today.

Extensive Aid Forecast Federal farm officials said the bill would enable them to set up the most extensive system of agricultural aid since 1933.

The bill provides \$202,000,000 for disposal of surplus farm products. This sum will be used to distribute commodities to families on relief and to subsidize exports.

Other items included \$191,000,000 for grants to states for road work; \$40,000,000 for loans to tenants to buy farms; \$47,925,000 for benefits to producers under the sugar control act; and substantial amounts for forestry, combating insect pests, and agricultural experiment work.

LEGLESS BEAUTY TO BECOME BRIDE

HACKENSACK, N. J., July 1. (AP)—Jessie Simpson, 29 years old beauty contest winner whose legs were amputated three years ago in a train accident, is engaged to marry the boy she long loved.

She made the announcement last night at a party at a New York hotel where she danced, wearing artificial legs, with her fiancé, James Stewart, advertising executive of a Hackensack store.

It was the first time she had danced since she lost her legs April 26, 1937, when she missed her footing on the steps of a moving company's train.

MENARY URGED BY PHYSICIAN TO REST

WASHINGTON, July 1. (AP)—Senator Charles McNary of Oregon, ill since June 18, was urged today by his physician to take a "complete rest" at his Oregon home.

Friends said the suggestion did not "rest very well" with the republican senate leader. They added McNary was feeling much improved although still weak from an attack of intestinal influenza.

TRUCK SNAPS LEG OF STATE LIBRARIAN

SALEM, July 1. (AP)—Miss Harriett C. Long, state librarian, suffered a fractured leg when she was struck by a truck at a downtown intersection here early last night. She was resting comfortably at a local hospital today.

DANZIG

Democratic Senators See Ultimate Win

Administration Gets 2nd Jolt as House Refuses Complete Repeal of Arms Embargo.

WASHINGTON, July 1. (AP)—A rip-roaring senate republican filibuster swept away President Roosevelt's dollar devaluation powers early today, but democratic leaders obtained an agreement for a showdown vote Wednesday on restoring them.

Over in the house, at another late night session a rebellious bloc of republicans and democrats had passed a short time previously a neutrality bill distasteful to the administration.

The stunning double defeat—perhaps only temporary on the money issue—threw administration forces into a state of bewilderment.

They predicted ultimate victory on the devaluation question, but were highly doubtful that repeal of the arms embargo—asked by the president—could be passed this session in view of the 290-to-188 house vote to continue a modified ban on arms shipments. Adjournment in mid-July was widely predicted.

Plan Talked to Death The president's authority to devalue the dollar (further and to maintain a \$2,000,000,000 exchange stabilization fund expired at midnight. Republicans, aided by a lone democrat—Tydings of Maryland—talked to death a senate-house conference agreement extending them two years and pegging the price for domestic silver at 71.1 cents an ounce.

The talk marathon continued, however, and democratic leaders finally obtained an agreement to vote by 5 p. m. Wednesday on the conference report. The senate adjourned at 1:53 a. m. with several hundred persons still in the galleries.

Butressed by an opinion from Attorney General Murphy, the administration forces contended passage of the extension bill would revive the president's powers without the necessity of putting an entirely new bill through both houses. Republicans and some democrats took sharp issue with this, but took comfort in the

(Continued on page 6.)

NEW LIQUOR BOARD NAMED BY SPRAGUE

PORTLAND, July 1. (AP)—Governor Sprague appointed Lloyd J. Wentworth, Portland, J. N. Chambers, Salem, and Lowell Stockman, Pendleton, today as members of the new state liquor control commission.

Wentworth, Portland republican and well-known lumberman, succeeded Chairman Arthur K. McMahon of Albany, who withdrew about a month ago.

Chambers, Salem democrat and manager of the Capital City Penny store, will represent the first congressional district.

Stockman, the second district representative, is a wheatman. Chambers and Stockman replaced Commissioner James D. Burns of Condon and Stanley Jewett of Portland. Jewett and Chambers resigned Wednesday at the governor's request.

ESTRANGED WIFE, DAUGHTER SLAIN

NEW YORK, July 1. (AP)—Mrs. Rose Shapiro, 37, and her 14-year-old daughter, Rhoda, were stood against their Bronx apartment wall and shot to death today by an intruder who rented them from their bed.

Mrs. Shapiro, who was estranged from her husband, Joseph, was suffering a fractured leg when she was struck by a truck at a downtown intersection here early last night. She was resting comfortably at a local hospital today.

One of the most colorful parades to be seen in Roseburg in recent years was enjoyed Friday, when visiting drill teams and drum corps passed in review before a great crowd of spectators. Shown above is a view of a small part of the lengthy pageant as it passed through the business section of the city.
