WAKE UP YOUR LIVER BILE—Without Calomel—And You'll Get Out of Bed in the Morning

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, gas builds up, your stomach is full, you get constipated. Your whole system is poisoned and you feel sour, sick and the world looks black.

A more bowel movement doesn't get at the cause. It takes three days until tomorrow, when you feel better, yet you are still in making bile due freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse anything else.
