

WASHINGTON TOWN SUFFERS BAD FIRE

WASHINGTON, Aug. 17.—(AP)—Secretary Wallace announced today that the government would take title to more than half of the 11,420,000 bales of cotton held under loans to growers in order to carry out the cotton-rubber exchange with Great Britain.

At the same time, the secretary said the commodity credit corporation would extend government loans on the 1939 crop cotton for one year until July 31, 1940.

All of the government loans on cotton are on an annual basis and mature July 31.

Wallace said the government loan corporation already had taken title to 1,670,000 bales of 1934 crop cotton.

On September 1 of this year he said the government would take title to 5,270,000 bales of 1937 crop cotton.

Although the exchange of surplus American cotton for British rubber tentatively calls for only between 500,000 and 600,000 bales, the secretary said that it was necessary to take title to the 1937 crop also in order to provide the quality needed.

In addition to the British deal, officials recently have announced tentative sale of 250,000 bales of government loan cotton to Spain and possible sale of another 150,000 bales to France and Switzerland.

Cotton going to Britain, France and Switzerland, must be held as a war reserve for five years, or until an emergency prevents usual purchases of American cotton.

GROCERYMEN TO MEET BOUCKOCK'S

Tonight's City Softball league schedule pits Boucock's against Safeway in the opener and the league-leading Dunham aggregation against the Hancock Oilers in the nightcap. Since the Grocerymen are one of the three teams able to defeat the Oilers this season, Boucock's cannot afford to take this game too lightly. And the same goes for the pace-setting Transfer-men, who have lost but one game this season. For one of the toughest battles they've had was the one against Hancock several weeks ago when they were forced

to overcome a 7-run lead and go nine innings to squelch the pesky Oilers.
