NAZIS USE 3 PLANES IN NORTH SEA RAID

EDITORIALS on the DAY'S NEWS

By FRANK JENKINS
THERE'S a new straw in the wind today (Wednesday). The kings of Norway, Sweden and Denmark meet with the president of Finland, and our old friend "informed sources" intimates that a new peace effort may come out of the conference.

If somebody could find a formula for saving the faces of everyone concerned, peace in the near future would be more than a mere possibility—it would be a fairly strong PROBABILITY.

If Hitler really WANTS PEACE. But doesn't know how to go about getting it without embarrassment, he must have realized that he has bitten off more than he can hope to chew. Biting off more than he could chew wrecked Napoleon.

THE steamer President Harding (American) heading home-ward, runs into a storm that compels her to leave and radio for help. Her SOS calls for a coast guard cutter to provide medicines, splints and fracture supplies and to remove the injured. The injuries she reports include broken legs, broken ankles, broken arms and broken backs.

Guilt Belief As To Athenia Hits Russia

Liner May Have Been Sunk by Soviet, Senate Told by Reynolds; Embargo Debate Keeps Up.

WASHINGTON, Oct. 21.—(AP)—Senator Reynolds (D., N. C.), announcing he was opposed to repeal of the arms embargo, told the senate today that, in the sinking of the British liner Athenia, "the finger of guilt more clearly points to soviet Russia than to any other nation."

"Fantastic though it may seem," the North Carolina senator asserted, "it is certainly less fantastic than some of the other startling surprises of the past several months which already are proved beyond any question."

Senator Andrews (D., Fla.) led off the day's discussion with the argument that failure of congress to repeal the embargo, as the administration bill provides, might result in defeat of France and Britain and leave the American nations "to face the Nazi-soviet bloc on this side of the Atlantic."

Senator Downey (D., Calif.) offered an amendment which would permit only partial repeal of limiting arms sales to those American nations fighting non-American enemies. Thus, in the present war, arms could be sold to Canada but not directly to any European belligerent.

Senators Burke (D., Neb.) and Gillette (D., Iowa) offered an amendment which would exempt from the title transfer provisions of the act American firms which maintain branches in Canada. Gillette explained that such companies would not be required under the amendment to transfer title to goods shipped overland or by inland waterways to their establishments in Canada.

Andrews said "the opinion pre-

County Assn. Of Teachers Names Heads

W. E. Buell, Elkton, Chosen President; Mid-Year Rally Plans Begun, Speakers Heard.

W. E. Buell, of Elkton, was elected president of the Douglas County Teachers association at the business session Friday afternoon, which brought the one-day teachers' institute to a close. Ross Brown, of Canby Valley, will serve as vice-president with Christine Jensen, of Yoncalla, as secretary-treasurer. Isabel Ikenven, rural supervisor of Klamath county, was elected vice-president-at-large for the association.

Plans were made to hold the mid-year rally and the matter of arrangements was placed in the hands of the executive council. Selection of delegates to the O. S. T. A. also was placed in the hands of that council.

Best Teacher Described F. G. Macomber, professor of education at the University of Oregon, selected "What Makes a Successful Teacher" for his topic. He discussed data gathered from a questionnaire, which was distributed to 10,000 students throughout the United States. The results showed that students consider the successful and best liked teacher as one who was helpful with school work and uses many examples in explaining lessons; cheerful, happy and good natured; human, friendly companion; one who makes work interesting and creates desire to work; strict control of class with good leadership.

Macomber said that a master teacher must have an understanding of pupils, realize that students are individuals and must be treated as such in teaching, and must know child psychology. He closed by saying that the time will come when it will be necessary for a

Turkey May Be Sliced Up, Hint of Nazis

Another Poland Foreseen as Result of Pact With Allies, Regarded as Blow to Russia.

BERLIN, Oct. 21.—(AP)—Informed nazis intimated today that Turkey may become another Poland.

The intimation—and it was no more than that—was based on the fact that Lavrentia, soviet Russian government newspaper in Moscow, said Russia had no reason to regret Turkey's action in signing a mutual assistance pact with Great Britain and France.

Authoritative sources said "Russia does not need to regret Turkey's new alliance because now she is free to occupy the Dardanelles if she desires."

Commentators pointed out that Russia throughout her history had resisted British attempts to control the Dardanelles, strategic gateway to the Black Sea.

They said that, as long as Turkey remained neutral, Russia could be satisfied to leave the Dardanelles in her friends' hands.

Russia "Given Cause" But now that Turkey definitely had allied herself with Great Britain, they asserted, cause was given for Russia herself to assume mastery not only of the strategic gateway, but of Turkey.

They said they believed Turkey probably would be carved up as Poland was by Germany and Russia.

RURAL AID DEMAND IN CONGRESS LOOMS

WASHINGTON, Oct. 21.—(AP)—The Bankheads of Alabama, only brothers now serving in congress, threatened today to upset President Roosevelt's effort to limit the special session of congress to neutrality legislation.

Speaker William B. Bankhead of the house, and brother John of the senate, appeared confident that they would be able to put through an emergency appropriation of at least \$50,000,000 for rural relief in 29 states.

Usually the Bankheads keep in close step with the president.

"That this is an emergency," explained brother John. "We can't let people starve through the winter until congress meets in January."

Senator Bankhead started the drive for rural relief funds by calling together more than a score of senators from states hit by drought and floods this year. He enlisted the aid of his brother in organizing a group of house members.

Representatives of the farm security administration told the senate that crop reserves had covered sudden demands for \$15,000,000 additional farm families for federal grants or loans. Congress provided \$12,000,000 for these purposes this year.

The senate group agreed that at least \$50,000,000 additional was needed. Senator Bankhead said the senate and house groups would meet Monday to outline their strategy.

KIDNAPER ROBS SALEM MOTORIST

KEISO, Wash., Oct. 21.—(AP)—George Healy, 55, Salem, told police a kidnaper entered his automobile at a Salem street last night, robbed him of \$12 and forced him to drive into Washington before deserting the car.

Three Additional Merchant Vessels Sent to Bottom of Sea by U-Boats and Minc.

LONDON, Oct. 21.—(AP)—The air ministry announced tonight that three of 12 German airplanes attacking a British North sea convoy today were shot down and another was forced to alight at sea.

There were no British casualties and no convoy or escort ship was damaged, the ministry said.

Appearance of unidentified aircraft off England's east coast caused air raid warnings in the Hull and Grimsby areas.

A brief air ministry communique said warships of the convoy opened fire on the Nazi planes and "our fighters (pursuit planes) inflicted some casualties on the enemy."

Hull and Grimsby are on opposite sides of the Humber estuary. At one coast town the drone of aircraft and the sound of gunfire was heard before the warning was given. Crowds en route to football games went to shelters. On one football field three players who were air raid precaution wardens left for duty and the game was deferred.

NANCY, France, Oct. 21.—(AP)—Anti-aircraft guns fired at planes during an air raid alarm which lasted from 10:16 to 10:45 a. m. today, military sources disclosed. The planes were reported flying north at high altitude.

Warning sirens excited the residents of Nancy, but the alarm ended without an air attack.

Nancy is 70 miles west of Strasbourg, which is on the Rhine frontier.

HITLER'S CRASH BY MARCH PREDICTED

PULLMAN, Wash., Oct. 21.—(AP)—Overthrow of Adolf Hitler by next March was forecast last night by Prince Hubertus Zet Loewenstein, former Austrian nobleman.

Speaking at a businessmen's banquet, the prince, who fled Austria before its annexation by Germany, said he foresaw a revival of democracy everywhere "if the western powers show intelligence in the war."

The change in German government, he said, "will occur by next March. It will come from action led by military generals and democratic citizens, who will overthrow Hitler. If the western powers show intelligence in the war it may lead to a revival of democracy everywhere. The United States should play an important part in the reconstruction."

HARRY BRIDGES GETS VOTE OF CONFIDENCE

KLAMATH FALLS, Ore., Oct. 21.—(AP)—A vote of confidence to Harry Bridges, west coast longshore leader, and Morris Muster, CIO furniture workers leader, was granted by the C.I.O. International Woodworkers of America yesterday at the behest of President Harold Pritchett.

Resolutions passed yesterday asked restriction in use of the national guard and state police during labor troubles, condemned the national labor relations board's "dilatory" in certain disputes, supported the Wagner act, opposed oil taxes and advocated extension of the federal works and housing programs.

DIES BROKE FAITH, BUND CHIEF CLAIMS

NEW YORK, Oct. 21.—(AP)—Fritz Kuhn, national leader of the German-American Bund, said today he had written a letter to Roy Martin Dies protesting that the chairman of the committee investigating un-American activities had broken faith with him by making public names and addresses of Bund unit leaders.
