KEEP YOUR RED CROSS READY

THIS striking painting of a Red Cross nurse keeping the symbol of mercy flying is the keynote of the 1939 appeal for membership in the American Red Cross. Paced with the need for strengthening daily Red Cross services in 3,700 chapters, and with its charter obligation to aid in some measure in meeting the distress of the men, women and children refugees in war-torn countries across the sea, the Red Cross asks every man and woman in the nation, able to do so, to join as a member this year and support America's official voluntary relief agency.

Roskin Williams, a distinguished artist, is creator of this ideal conception of the nurse heroine.

The roll call for members will be held November 11 to 20—join through your local chapter. Help your Red Cross help others by becoming one of the millions who will add their names to the roll of mercy.

Choose the Speed to Speed The Job

Five forward speeds—from 1.7 to 5.1 miles per hour—that's the choice you get in the "Caterpillar" D2 and D4 Tractors. There's a low speed for the heavy pull and the high speed for lighter loads or quick moves from job to job. Three speeds in between give you just the right speed to handle a variety of jobs under various working conditions.

See us today and arrange to test the 5 forward speeds on your own farm.

FOR Children's SNIFLES

SPARE your child much of the misery of sniffing, sneezing, and another nostril due to colds by instilling Mentholum in his nostrils.

This gentle ointment soothes and protects irritated mucous membranes, reduces swelling, and thus opens breathing passages. It soon checks sneezing and sniffing.

Also rub Mentholum on the child's cheeks, hair, and neck. This will improve local blood circulation and help relieve cold discomforts more effectively.

Mentholum helps in many ways that you should always remember this For Discomforts of Colds—Mentholum—Lick them together in your mind.
