

DEADLINE ON AAA PRACTICES NOTED

Time for carrying out practices under the 1939 agricultural conservation program ends November 20, according to an announcement received from the state office.

It is important, states County Agent J. Roland Parker, that farm operators complete as many practices as possible before the closing date on November 30, as practices carried out after that date and included in the 1940 program may in some instances result in farm operators not securing a maximum benefit under either the 1939 or 1940 programs.

Farm operators who have completed the practices they will carry out this fall are requested to notify the agricultural conservation office at once in order that compliance supervisors may call and check performance to enable the county office to complete the reports to the state office without delay.

Around the County

CAMAS VALLEY

CAMAS VALLEY, Nov. 7.—Mrs. Jack Parrott is visiting her mother, Mrs. Douglas, in Pullman, Washington.

Mrs. Heaven Wakefield was taken to North Bend last week to consult doctors there as to her condition of health. She is quite improved since then and is able to be about again.

Mrs. Ed Nichols of Hazy Valley is staying at the home of Mrs. Nichols' parents, Mr. and Mrs. Jack Parrott, during Mrs. Parrott's absence. Mr. Nichols is plowing for Mr. Parrott with the Austin farming equipment.

Clinton McCann has gone to Albany to help with the farming on his uncle's ranch.

Mark Dick is at the Kayler farm near Carlton helping Mr. Kayler with his fall work.

Mr. and Mrs. Clarence Mayer are visiting in Seattle with the former's parents, Mr. and Mrs. A. W. Mayer. The latter, Mr. Mayer has been in very poor health the past few months.

Mr. and Mrs. G. R. Moore took Mr. Moore's aunt, Miss Minnie Leigh, to her home at Fall creek southeast of Eugene, Thursday.

Mr. and Mrs. Bruce Spackman and children ofillard visited Monday at the home of Mr. and Mrs. A. W. Geiler.

Mr. and Mrs. Millard and two children lately of Glide have moved into a house at the Harmon-Wakefield lumber mill where Mr. Millard has secured employment. They lived in Idaho before coming to Oregon.

Reed Dick has been hunting elk in eastern Oregon for the past week. He went from Riverview north of Eugene with Wilbur Reetz and some other men from that community.

Mr. and Mrs. Allen Church and son, John, have moved to the Lange place. Fred Lange is selling off all of his belongings and is planning on going to Arizona as soon as everything is disposed of.

William Porter was quite ill the last of the week. On Monday he went to Eugene with Mr. and Mrs. Charlie Reynolds and Mrs. Paul Jones.

Miss Louise Anderson spent the weekend with her parents in Ashland.

Mr. and Mrs. Charles Lawson of Roseburg visited Sunday afternoon at the T. G. Lawson home.

Miss Alice Moon ofillard attended church here Sunday morning and spent the day with Miss Genevieve Moore.

Raymond Miller of Winchester called Sunday afternoon at the T. G. Lawson home. Mr. Miller makes bows and arrows and is interested in yew wood and cedar to use in his work.

Mrs. R. L. Richter is visiting her daughter, Mrs. Clifford Wolbert at Conestoga, Washington.

Miss Gwendolyn visited her parents, Mr. and Mrs. Ralph Weaver, at Skyline Creek Tuesday night.

The students of the three grade rooms enjoyed Halloween parties at school Tuesday at different hours. The high school had a skating party at the Tennis rink Tuesday evening.

SERIAL STORY 'JOAN OF ARKANSAS' BY JERRY BRONDFIELD

COPYRIGHT, 1939. NEA SERVICE, INC.

CAST OF CHARACTERS: KEITH RHODES—Tech's star football, headed for All-American honors. DAN WEBBER—the blocking back who clears Keith's way; a steady, industrious student.

YESTERDAY: Joan offers little explanation of her quick trip. Keith is peeved over her failure to call him. She goes riding with him and he parks to tell her: "Joan, I love you."

CHAPTER XIII "Um—hm." "And I know something still more beautiful," he said softly. Then he tilted her chin in his hand and searched her face for the expression he sought.

She blushed and kissed her. She snuggled against his shoulder. "Joan," he whispered, "I've just got to tell you this. I love you." He framed her face with his two hands.

"I've never said that to a girl before believe me, I haven't. And I mean it when I say it now, Joan. Do you think you could tell me something like that?"

Joan felt her heart race at his words. It was something she had wanted to hear from him something she was confident he would say sooner or later. And here was the moment.

She buried her face against his chest for a long moment. Her thoughts raced along with her heart, and racing, they became confused, jumbled, conflicting.

It was the moment she had been waiting for but she didn't know how to meet it. After all the thought she had given the idea it suddenly occurred to her that she still wasn't sure.

Finally, "Keith—I must be honest with you. I did want you to tell me that. And it wasn't out of selfish, concealed motives. I didn't want you to feed my ego. But now . . . oh, Keith, I don't know what to say."

"Afraid you'll hurt me by giving the wrong answer?" "No, Keith, I just want to be sure. I can't tell you I do love you. . . but I can't tell you I don't."

He kissed her again, tenderly. "You're the loveliest fence-sitter I've ever seen."

But late that night the answer came to her. The suddenness of it made her sit bolt upright. From out across the still campus came the clear, mellow chiming from Hadden Tower, tolling 2 o'clock.

She dropped herself against the back of the bed and stared out the window at the opposite end of the room. The moon danced on the branches of the trees away in the distance.

She picked up the book she had been reading and stared at it. The moon danced on the branches of the trees away in the distance. She picked up the book she had been reading and stared at it.

There shouldn't be much for him to do, then. "That's right. . . and some Student Senate even names me to help him do nothing. It's the poor stonies who have to go out and gather wood for the bonfire that do all the work."

"Sounds like fun." "Oh, and you know the Senate usually just makes a formality of appointing his co-chairman. He just lets you know who he wants and they do the rest."

Joan looked up in surprise. She wondered who Dan would select. Elaine Campbell, perhaps. . . the girl he had taken to the Gamma dance. No, she guessed not. Dan hadn't dated her since. "I give up," she mused.

Elaine looked at her. "Huh?" Joan was just a bit flustered. "She's it. . . I was just thinking out loud."

"About who Dan would select, I suppose," Elaine added dryly. "It's a natural thought isn't it?" Joan said as she got up to leave.

Elaine watched her retreating back. "Um—hm. Now, I wonder," she said softly to herself. Elaine Chesbro was gifted with a highly analytical mind and as a sudden thought came to her an impish expression stole over her face.

The impish smile broadened into a wide grin as the idea grew on her. First, she had better call Tommy Peters for a little information.

Heaved a blue streak for getting him out of bed in the middle of the night but gradually subsided. "What's doin'?" he grumbled.

"Who's Dan going to name as co-chairman for the 'Last Week' committee?" "No one," Tommy's voice came back. "His ideas on the subject are strictly blank, from what I gather. So what?"

"So then the Senate just goes ahead and names someone for him, doesn't it?" "Such questions you can ask me before the sun is up," he groaned. "Go 'way and let me sleep."

She peered into her compact reflectively as she repaired her makeup. Bert Cassidy had been trying to get a date with her for weeks. Maybe she ought to stop and say hello to him. As secretary of student affairs, he might be able to do her a favor some time.

GROUND BROKEN FOR HUGE FRIANT DAM

FRIANT, Calif., Nov. 6.—(AP) Shovel hit into the hills of the San Joaquin river valley today as construction got under way on the Friant dam unit of California's huge Central valley water project.

It is a lifeline to preserve and enhance our American civilization. Fifty thousand Californians cheered the interior secretary yesterday as he climbed into the saddle of a bulldozer and pulled a lever which broke ground for the fifth largest concrete dam in the world—the second major step in the \$170,000,000 Central valley project.

In a little more than three years Friant dam will tower 300 feet and they do the rest. Joan looked up in surprise. She wondered who Dan would select.

Elaine Campbell, perhaps. . . the girl he had taken to the Gamma dance. No, she guessed not. Dan hadn't dated her since. "I give up," she mused.

Here's some "horse-sense" about HORSEPOWER. Horsepower isn't much good if you can't use it. And by use it we mean—put it to work WHEN you want it—WHERE you need it. For example, the "Caterpillar" Diesel D2 Tractor turns more than 80% of its engine horsepower into drawbar pull. That's because of its simple, direct transmission and the positive grip of its tracks on all kinds of ground. Try one and you'll see what we mean by "horsepower you can use."
