VICKS VA-TRO-NOL

Many of those gnawing, nagging, painful headaches people blame on colds or strains are often caused by tired kidneys and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Sew and Chat Club to Meet—The Sew and Chat club will meet Wednesday afternoon at the home of Mrs. Clifford Smith.

National Hospital Association

announces

Prepaid Medical and Hospital Care for Individuals and Families

Pioneer association answers public demand for protection against the burdensome costs of sickness and injury. Improved contracts follow the Association's famous Full Coverage industrial contracts and extend the benefits to provide world-wide security with free choice of doctors and hospitals!

THIS is the most important announcement made by the National Hospital Association since its founding in 1906. It is the common-sense answer to the ever-present problem of how we shall obtain medical, surgical and hospital care when sickness or injury overtakes us. It is the answer that provides protection for our health, our homes and our incomes and assures the doctors and the hospitals that their bills will be promptly paid.

Prepaid Medical and Hospital Security

Based upon a third of a century experience in providing medical, surgical and hospital care for the employees of the industries, the National Hospital Association is now extending its protection to individuals and their families under its improved Hospital and Medical and Hospital Security Contracts, through which the members are assured of full medical, surgical and hospital services and care by small payments made in advance while they are well.

Scope of Service

The improved Hospital Security and Medical and Hospital Security Contracts of the National Hospital Association are broad in their scope and embrace the various classes of services and care required, including services of physicians and surgeons, specialists, x-rays, clinical laboratory examinations, hospital care, operations, consultation before operations, oxygen, radium, x-ray therapy, physical therapy, blood transfusions, biological serums, antitoxins, ambulance, care in private sanatorium, special nurses, and other recognized services. Of special interest to young-married people are the maternity provisions of the Association's Family Contracts.

Protection is World-Wide

Holders of National Hospital Association improved Security Contracts are protected where

ever they may be—at home or abroad. There are no geographical limitations under National's improved Security Contracts.

Member Selects the Doctor and Hospital

Most far-reaching of the many features of National's improved Security Contracts is the member's right to choose the doctor he wishes to attend him and to select the hospital. The member is not required to use the staff physicians of any special bureau or group; thus, he may enjoy the confidence of the family doctor and the skill of the trained specialist. To our knowledge this is the first time in the history of medicine that the general public has been offered a world-wide medical and hospital security under a prepaid plan that gives the members the privilege of selecting the doctors and the hospitals they wish to attend them.

Who May Become Members

National Hospital Association's improved Security Contracts are designed to be of service to the greatest number of people. All persons between the ages of two and seventy years—

men, women and children, regardless of where they live—are eligible to membership, the only provisions being that they shall be of good reputation and in good health at the time their applications are received.

Contracts Fit Family or Personal Budgets

The National Hospital Association has designed several classes of contracts to meet the economic circumstances of those who are interested. There are two major plans, each divided into three classes to fit the personal and family budgets or the desires of those applying for membership—each plan and each class of contract furnishing a complete service.

ASK FOR FREE BOOKLET

Everyone should know about the National's new plans of prepaid Hospital and Medical and Hospital Security for individuals and families. This subject is of such great importance and of such wide-spread public interest that the National Hospital Association has prepared an informative, illustrated booklet containing complete information as to how you can obtain this security for yourself and your family. The Association will be pleased to send you a copy of this booklet upon request. Simply fill in and mail the coupon below to the Association's offices in Portland.
