BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention. The kidneys are Nature's chief way of taking excess acids and poisons waste out of the blood. They help most people pass about 3 pints of urine a day. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

POET'S CORNER

THE FRAIL BRIDGE OF TIME

By G. M. LEEPER I seemed to catch an undercurrent

Of something rich and fine, Like a shaded pool mirroring Loveliness beneath a vine.

It was not of flowers, Nor a thought beside a stream, Nor a beautiful image Created in a dream.

It was that life beyond The frail bridge of time, Like a bell, long silent, Somewhere, its faint, faint chime.

It was not of the pool Shaded there, and scarcely seen, Looking up towards the sky, With no thought what life could mean.

I seemed to catch an undercurrent Of something rich and fine, Deeper than the pool, And lovelier than the vine.
