Ginger Rogers Gets Decree of Divorce

LOS ANGELES, March 13.—(AP)—Ginger Rogers, glamorous film actress, was given a divorce today from Lew Ayres when she testified the actor "told me to get out and go home to my mother."

Questioned during brief testimony by her attorney, Neil S. McCarthy, Miss Rogers testified she and Ayres separated May 11, 1936.

"Did you and he have an affection at that time?"

"Yes."

"Had you had any difficulties prior to that time for some period?"

"Yes, we had."

"And had there been criticism on his part of you and your friends?"

"Well," the actress replied after some hesitation, "he had constantly criticized me and my friends and my work."

"Had that upset you and affected your health?"

"It made me very nervous. I lost a lot of weight, and finally one day he told me to get out and go home to my mother, and there was nothing else for me to do."

Miss Rogers declared she had lived ever since with her mother, Mrs. Leah E. Rogers, who corroborated her testimony.

Ayres made no appearance. A blonde in pictures for years, Miss Rogers was a brunette today.

Big Population Gain in Western States Forecast

NEW YORK, March 13.—(AP)—Industrial expansion that will add 5,000,000 to the population of the eleven far western states in the next few years was forecast here today by George W. Malone, San Francisco industrial engineer.

Malone, who is consulting engineer-manager of "the Industrial West, Inc.," which is dedicated to industrial development of the 11 western states, came to New York as chairman of the industrial committee of the Golden Gate International exposition.

"Out West we have the greatest source of strategic raw materials in the world," Malone said. "We've been shipping our materials east for processing."

"Now we are going to set up our own factories, to be supplied with cheap hydro-electric power, and we are going to process our own raw materials and sell manufactured products to South America and the Orient."

He predicted that this industrial development would in the next few years boost the far west's population from 13,000,000 to 18,000,000.

RUG RINSING EASY

There is an easy way to rinse small rugs after they have been shampooed. Hang them outdoors over the clothes line and rinse with a hose until the water comes clear. Complete rinsing is essential. Let the rugs dry on a clothes line or a flat surface.

A tree, 34 feet in diameter, and estimated to be more than 3800 years old, is said to be the world's oldest. It is located in Yosemite national park.

M-J-B WHY?

"We found the answer in a snowstorm..."

2 I dug through the drift with a ski. Luckily the door was unlocked so we barged right in and made ourselves at home. There was food on the shelves and an unopened can of coffee. We started a fire and put the coffee on the stove. Maybe it was because we were tired and cold, but that coffee tasted wonderful. It had a deep, rich flavor like a rare old wine.

Drip or Regular Grinds
*For drip or glass coffee makers

1 We were skiing 'cross country, miles from anywhere, when it started to snow. We lost our way and floundered around for hours. Believe me, we were scared stiff. And then we stumbled on a trapper's cabin half buried in the drifts.

3 "What kind of coffee is this?" I said. "Look at the can, silly," laughed the wife. "I've been telling you about M-J-B's Richer Roast for years, but you wouldn't let me change. Remember?" "You win," I said. Next morning the storm had passed so we left some money and the wife scribbled a note: Many thanks from two orphans who discovered your cabin and M-J-B!"
