NAZIS FLEE NARVIK; BRITISH TROOPS LAND

In The Day's News
By FRANK JENKINS

TWO things are happening in the North sea and its entranced to the Baltic, the Skagerrak. In these cold waters, a battle is taking place and a show is being put on.

THE battle, of course, is the primary consideration. If the allies gain possession of Norway which will give them a pry on Sweden they will have a jumping off place for attacking Germany ON A NEW FRONT—

which the Germans fear. If the Germans hold Norway (which they have seized with insufficient forces that they are now trying desperately to re-enforce) they will have prevented the allies from opening up a new front, will have cinched possession of Scandinavian resources such as Sweden's iron and will have gained closer bases for submarine and air attacks on Britain.

It is for these tremendous objectives that the battle now under way is being fought. THE show, of course, is aimed indirectly and remotely at US, but DIRECTLY AND IMMEDIATELY at the European neutrals—especially the Balkan nations which are hoping to stay on the fence but have in the back of their minds the idea of rushing to the aid of the probable victor as soon as it becomes reasonably apparent who the victor is going to be.

The probability of victory may be indicated by the battle now in progress, so these European neutrals (especially the Balkan nations) are on the hot spot RIGHT NOW.

If, out of the battle raging in the North sea, they can pick the winner

Escapes Caught On McNeil Island

TACOMA, Wash., April 15.—(AP)—Near exhaustion from lack of food and rest, Joseph Paul Crezer, 28, and Arnold Thomas Kyle, 29, known as "the nation's No. 1 bank-robbing team," were captured last night only two and a half miles from McNeil Island federal penitentiary. The pair escaped Thursday.

Their capture was made without resistance by a posse of 12 prison guards after a searching party of three had discovered them hiding in a bushy area near the island schoolhouse. The fugitives accidentally made their presence known when one made a noise as he shifted his position in the bushes.

They escaped from the penitentiary by driving a delivery truck, which had been left in the prison yard, through the rear inspection gate under the gunfire from a guard. The truck was found abandoned two miles from the prison. Both were serving 25-year sentences for robbing the Bank of America in Los Angeles in 1938.

Los Angeles Teamsters' Strike Brought to Halt

LOS ANGELES, April 15.—(AP)—An A.F.L. teamsters' strike against the city's three largest produce markets ended at 3 a. m. today, when the union voted to submit a wage increase demand to arbitration, a step suggested earlier by the management.

Picket lines, maintained since a walkout Friday, were removed. The strike affected directly 1,250 workers in the three markets and indirectly 2,000,000 consumers, who saw fruit and vegetable prices go up Saturday and anticipated further increases if the dispute continued. The union asks that the minimum wage be raised from \$25 to \$30 weekly.

EX-MAYOR FRED W. HAYNES PASSES

Career Also Included War Time Service

U. S. Land Office Position of Receiver Filled; Pursuits in Business Life Included Dentistry and Pharmacy.

Dr. Frederick W. Haynes, 68, Roseburg druggist, and former mayor of Roseburg, died this morning at the veterans' hospital in Portland following a long period of ill health.

Mr. Haynes was an officer with the Second Oregon Volunteers during the Spanish-American war and also served in the state quarries during the world war. He engaged for many years in the practice of dentistry, changing eventually to the operation of a drug store.

Born in Roseburg, October 22, 1871, the son of George and Carrie Lane Haynes, Dr. Haynes was favored by illustrious ancestors through both of his parents. His paternal grandfather emigrated from England to America with his family in an early day and met death in a battle with Indians while moving westward.

Receiving his early education in the public schools of Roseburg, he went to San Jose college for advanced studies and then for four years was employed in a drug store at Portland, where he completed his studies of pharmacy, and at which time he became a member of the Oregon national guard.

Fun and Feast Mark City's Fish Derby

Results of Anglers' Treks to Streams Exhibited, Trout Served to Public; Lakes Yield Best Catches.

Fish ranging from lowly shiners to lordly chinook salmon were on display in Roseburg this morning as the city held its second annual fish derby, celebrating the opening of the trout season.

Many limit catches were on display, particularly good results having been obtained by anglers who journeyed to Fish, Buckeye and Loon lakes. Smaller catches were made in the rivers and streams, which still are too high for the best trout fishing.

A public fish fry at 10 a. m. was the principal event of the day. Stoves were set up at the main intersection of the city's business district where fish were fried and served without charge to more than 2500 persons.

The occasion was enlivened by music furnished by the Roseburg high school pep band, under the direction of J. D. (Snap) Gillmore, which paraded the streets and held a station at the corner of Cass and Jackson streets while the fish fry was in progress.

Conditions Only Fair Fishermen reported conditions in rivers and streams to be only fair, due to the fact that water still is high and somewhat muddy. However, on the North Umpqua several fishermen had good success with flies, although most anglers

M'Nutt Goes On 'Stump' To Bid for Votes

Oregon Listed in Itinerary of Candidate for President; Farley, Dewey, Taft Also Scurrying for Delegates.

By WILLIAM L. HEALE, Jr. WASHINGTON, April 15.—(AP)—The open season for political horse-trading is sending presidential hopefuls scurrying for unpledged convention delegates whose votes may far outweigh a handful of symptomatic state primaries.

Mr. Roosevelt spoke before the governing board of the Pan-American union on the observance of the organization's 50th anniversary and proclaimed a determination of the western hemisphere "to live in peace and make that peace secure."

Methods Compared In words broadcast throughout the nation, the president designated no belligerent by name when he used these words apparently directed at recent European developments.

Stable Peace Still "Dream" Mr. Roosevelt said "universal and stable peace remains a dream" and told his listeners to "have no illusions" at a time when "old dreams of universal empire are again rampant."

Why West Has Peace "Peace reigns today in the western hemisphere," he said, "because our nations have liberated themselves from fear."

ENTIRE NAZI BALTIC COAST MINED, BRITAIN ANNOUNCES

All German Warships In Harbor Sunk

Nazi Forces Reported to Have Gained in Regions Around Oslo; British Mine Entire Baltic Coast of Germany.

STOCKHOLM, Apr. 15. (AP) British forces were reported today to have landed in Narvik under the protection of naval shellfire which drove the Germans from the Norwegian ore port into the mountainous interior.

The British warships which raided Narvik Saturday, apparently preparatory to a landing by British soldiers or marines, were said to have the city under control of their guns.

These sources said that all German warships in Narvik, hopelessly outweighed by the stronger British naval force, had been sunk while trying to keep the British out of Rombak fjord, which controls the port.

According to the Norwegian versions, the British battleship Warspite, screened by a division of destroyers, forced the mouth of the fjord. Norwegians considered it unlikely that the Germans would be able to land troops in Narvik again.

They said that there had not been any heavy British bombardment before landing forces were sent ashore but that Narvik's biggest building, the new Hotel Royal, had been destroyed.

King Urges People to Fight

The Norwegian king, meanwhile, was urged to greater efforts by their aging sovereign, King Hakan who last night broadcast an appeal to his people to fight for "freedom and independence."

Nazis Gain Ground

Swedish authorities announced that 3,000 Norwegians, seemingly hard-pressed, had fled across the frontier near Hakan at the southernmost tip of Norway and had been disarmed and interned.

There were reports, however, that despite determined German efforts to clear out all resistance between Oslo and the Swedish border 30 miles away, Norwegian troops still were clinging to positions between Mysen and Kongsvinger.
