Chevrolet Maintaining
Leadership in Sales

Keeping pace with the popular public demand which, since the announcement of its new 1940 models, has resulted in sales leadership by the widest margin in its history Chevrolet motor division this week announced that the production to date is well in excess of 800,000 units. Commenting on this all-time record in sales of new passenger cars, used cars and trucks, H. T. Hansen, Chevrolet dealer of Roseburg, said: "Both nationally and locally, Chevrolet is continuing strong in the tremendous sales performance that has made it the leader in the industry eight out of the last nine years. Through the nation, Chevrolet dealers enjoyed a huge increase in selling 92,784 new passenger cars and trucks, or a gain

of 20.1 per cent over May of 1939.

"Here in Roseburg our month of May sales were correspondingly successful, giving us outstanding leadership in the field with the sale of 24 new passenger cars, 52 used cars and 11 trucks."

As a sound automobile merchandiser and business man of the community, Mr. Hansen pointed to the outstanding values that are being offered at the present time.
