WAKE UP YOUR LIVER BILE— Without Calomel—And You'll Jump Out of Bed in the Morning and Want to Go

The liver should pour out two pints of bile into your bowels daily. If this bile is not flowing freely, your food may not digest. It may not decay in the bowels. Gas builds up your stomach. You get constipated. You feel sour, sink and feel unwell.

It takes these good, old Carter's Little Liver Pills to get these two pints of bile flowing freely to make you feel "up and up." Amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 10¢ and 25¢. Don't buy anything else.

There's "headline" news in the hood that bewitchingly tops this Anne Adams style. For the smartest heads of fashion how to hood— they're so becoming; so useful for keeping curls in order. Pattern 4435 is a two-piece shirtwaist dress that comes in day and evening versions. The optional, pointed hood continues down to form a soft collar-effect. Make just a simple collar, if you prefer. The flaring skirt is made on the bias and has a wide slimming cummerbund. For a really stunning effect, let the skirt and lining of the hood be in 2 1/2" stripes, with the blouse snowy white.

Pattern 4435 is available in misses' and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28 and 30. Size 16, skirt and hood lining, takes 2 1/2 yards. 35 inch fabric and blouse 2 1/2 yards. Contrast.

Out Again, In Again—Twelve Times

No mean part of the work at Shasta Dam near Redding, Calif., is relocation of 30 miles of Southern Pacific Railroad line—around the site of Shasta reservoir. Besides eight bridges, 12 tunnels—like the two above—must be constructed. Each of these concrete-lined bores is about a half mile long.

DAILY DEVOTIONS DR. CHAR. A. EDWARDS

The kind of God a man worships makes all the difference in the world. In our time men have been turning away from the one immanent transcendent Lord of the whole universe to such tribal gods as the class, the race, or the defiled individual. The Supreme Being recognized in some quarters today is a god of "blood and soil." The disastrous results of this backward trend in religion are obvious to all who have eyes to see. A tribal god always leads to war and disquietude. A universal god always leads to peace in the soul and good-will among men. But the term god means even more than that to the Christian. It means an ever-present source of help, Salvation in a delicate blending of high thinking, right living and divine grace. Divine grace enables us to think clearly, to live nobly, to set the Lord always before us. Men and nations can be no better than their concept of God and of the meaning of life. There must be true thyself, if thou the truth would teach. Thy soul must overflow if thou another soul would reach. It takes the overflow of heart, to give the lips full speech. Amen.

They arrived in Springfield in time for Father's day and were also there when Mr. Nielson celebrated his eightieth birthday anniversary. They made the round trip by automobile.

School District Reorganization Plan Discussed

Views Offered on Legislative Proposal as Particularly Applicable to Douglas County Situation.

(Editor's Note—A tentative plan, authorized by the legislature, for reorganization of Douglas county school districts, has been submitted to the state board of education for approval. The proposed reorganization would become effective where accepted favorably, but could be rejected by the people where districts did not approve. In order that there may be an understanding of the conditions upon which the proposed program is based, the News-Review has requested a series of informative articles on this subject. Mr. Byers was employed by the reorganization board to collect the data necessary for the reorganization study and the statistics he presents in the series of articles appearing in the News-Review are presented solely for the purpose of informing News-Review readers with regard to this program. Any conclusions or opinions expressed are those of the writer.)

By LEE BYERS, Coast

(No. 7 in a series of articles explanatory of the proposed school reorganization plan for Douglas county.)

In the coast section there are possibilities for educational improvement which can be brought about by combining and eliminating where necessary. Of course these suggestions have been offered and considered with the knowledge that the patrons of the section must be the deciding factor in which schools should be operated in future years.

At present ten schools are offering elementary school service and three are providing high school facilities, even though the facilities may be meager and costly in at least one district. With a little vision the school patrons and tax payers can realize that it would be more economical and there would be better school improvement where they demand that one high school and five elementary schools serve the area. Perhaps five years may bring about the change for the better. Average daily attendance at Smith River high school 174; Gardiner 293; Reedsport 1334. The total assessed valuation of this area is \$3,245,395 with a total average daily attendance in the area of 5975 and a tax valuation ratio of \$5.440. In making future boundary adjustments this has advantage of securing additional valuation from some joint districts existing on both the Lane and Coos county lines.

Buildings are available at the present time to care for school growth for a period of several years, at the end of that time perhaps new buildings would be necessary in Districts Nos. 3 and 137.

In North Douglas county a fine example of consolidation has been shown in the Elkton area where five of the rural districts have joined with the Elkton district and a modern building is to be erected to serve the patrons from the entire consolidated area. It will be but a short time until the two existing rural districts are attending this school for the parents will demand that all children be given the equal opportunities offered under the consolidation. With these last two districts in the consolidation one board with one tax levying body would serve where the work is done. The valuation of this section is \$1,495,395.

In the Drain section seven elementary schools and one high school are operating. Three elementary schools could serve this section—good buildings available at Curtin and Drain; elementary school should continue in Gunter area, perhaps some building improvement necessary. Total valuation of this area \$1,375,855.

In the Yoncalla area five elementary schools are operating where three could serve as well or better and perhaps even two within a five year period. Good buildings available for the two schools, fair condition at third. No immediate building program necessary. Valuation Yoncalla area \$1,383,915.

If the future is to be considered together with the need of meeting advancing standards in education the three districts mentioned should look forward to a possibility of having one tax unit with one high school and about six elementary schools operating.

Total valuation for the North Douglas unit \$1,254,975; total number in average daily attendance both grades and high school 6599; valuation ratio \$6.489.

Present daily attendance at the three high schools; Elkton 48, Yoncalla 522, Drain 919.

Competition is greater today than it was a few years ago and the small high school is at a disadvantage in offering the student the necessary training which will best fit him to compete with those who have had the advantages offered by better organizations.

Oregon was known through the nation at one time for its advance in offering high school education to boys and girls in every locality. This came about from many small schools having been organized, but today many of these schools have served their original purpose and with better facilities available through consolidation and modern means of communication a great improvement will result from more combining.

The well equipped rural high school when supplied with a reasonable number of students can offer these boys and girls a better education for their purposes than can the city system. In considering necessary offerings the following may be mentioned: Smith Hughes course in agriculture as well as home making, together with efficient business courses. It is practically impossible for this service without more attention being given to some high school consolidation.

Annual Picnic Planned by Douglas Musicians

Preliminary plans for the annual musicians' picnic, to be held at Fisher's grove at Kellogg Sunday, August 4, were made at a meeting held Sunday at Elkton. Delegates were present from Roseburg, Elkton, Kellogg and Reedsport, making a group of 21 persons, to consider the arrangements for the rapidly growing event. It was decided to invite musicians from Coos and Lane counties to participate.

Attending from Roseburg were Joe Householder, president, and Mrs. Householder; C. H. Arundel, secretary; Mr. and Mrs. J. D. Gilmore, and Mr. and Mrs. Peto Crummett.

A delicious chicken dinner was served the group by the ladies of the Christian church at Elkton.

Arrive From Los Angeles—Dick Helmholdt, who is employed at the Douglas Aircraft Co., in Los Angeles, and Miss Barbara Cloake, who is employed in that city, arrived here yesterday to spend a week vacationing and visiting their respective parents, Mr. and Mrs. E. A. Helmholdt and Mr. and Mrs. W. T. Cloake.
