Today's Pattern

A TAILORED TWO-PIECE FROCK PATTERN 4496

Two-piece dresses are very much in vogue this season! They're liked because they give a neat suit-effect, yet are so cool to wear. You'll want to make Pattern 4496 by Anne Adams in several versions, matching the two pieces or mixing them for versatility. The paneled lines are easy on the eye and easy on your needle, too. The skirt is nicely full, while the top fits with modeling smoothness. For a knock-about dress, cut the sleeves short and have a moderately high, scalloped neckline. If you need a more tailored travel style, have long sleeves and add a prim pointed collar, becoming in contrast. A style that should lead your "must have" list!

Pattern 4496 is available in junior miss sizes 11, 12, 13, 14, 15, 16 and 17. Size 13, blouse and skirt, takes 3 1/2 yards 35 inch fabric. Send FIFTEEN CENTS (15c) in coins for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER. Send your order to the News-Review, Pattern Department, Roseburg, Oregon.

Religious Education Dealt With in Book

Written by B. L. Eddy

Hon. B. L. Eddy

Religious education on the basis of Christian precepts and principles has a vigorous exponent in Hon. B. L. Eddy of Roseburg, who sets forth his views in the logical and incisive manner of a skillful and painstaking lawyer, in a book entitled "Christianity and Education." Perusal of a copy of the book submitted to the News-Review brings the opinion that in the handling of his subject the author, subscribing himself as "a Protestant layman," offers much for serious consideration and deep thinking to the clergy as well as to the laity. Of especial interest to readers, whether churchmen or not, are those sections of the book dealing with legal rulings on the teaching of religion in public schools and refutation of the oft-heard claim that Christian doctrines are incapable of reconciliation with science and philosophy.

In his advocacy of more widespread teachings of the Christian faith, the author is not blind to faults within the church. Criticism of the pecuniary and lip-serving elements that make for congregational disputes and "dead" churches is set forth in plain, understandable language, and in the final paragraphs of the work there is the acknowledgment that "never did the church so much need a well-informed ministry and laity" to meet "subtle, widespread and multifarious assaults upon the faith." Taken as a whole the book impresses one with the unmistakable devotion of the author to his chosen faith and with his outspoken frankness in referring to those whom he holds remiss in their obligations as Christians.
