Ersatz Beer Flows Into

Stomachs of Germans

BERLIN, Aug. 6.—(AP)—Germans have begun drinking non-alcoholic beer as a beverage that can quench their thirsts and even be consumed at work "without detrimental effects."

An idea attributed to abstemious Adolf Hitler and converted into reality by German chemists, it has just begun to flow from thousands of beer-taps.

How it is brewed is a secret, but it looks like beer, tastes like beer and contains the same ingredients—except the alcohol.

Production has been fixed temporarily at 1,000,000,000 gallons a year.

LODGE DIRECTORY
