ing Mrs. Jim Vasoliu, 53, as she fled across a field, and wounding Vasoliu in a leg, but he insisted he had not intended killing either. A posse organized by Sheriff Claude L. McCauley found Williams in a railroad cut 20 miles south of here. He was not armed and offered no resistance. He said he had caten only part of a watermelon since Saturday.

Sergeant Hirtzell said Williams had served time in a Stillwater, Minn., prison.

had served time in a Stillwater, Minn., prison.
Hirtzell said Williams quit work Saturday and was paid off. There apparently was some dispute over wages. Williams returned to the house, the officer said, entered through a window and obtained a shotgen. Vaseliu said Williams fired at him from a haystack, and then opened fire on Mrs Vaseliu as she fled across a field. One blast struck her in a leg and another in the head. The shotgen was found hear her body.
Williams had been employed on the Vaseliu acreace two miles from town for several months.

CIO-AFL Peace? No, Lewis States

SEATTLE, Aug. 13.—(AP)—Unannounced, John L. Lewis arrived here yesterday for three days of conferences with C.I.O. officials. In an interview, the C.I.O. leader reliterated his opposition to the Burke-Wadaworth conscription bill and answered "none" when asked whether he thought there was a chance for peace between the C.I.O. and A.F.L.

Expressing concern over postwar results of the European struggle in the United States. Lewis said:

gle in the United States. Lewis said;
"No matter who wins, the repercussions of the war will be had here. Our national economy is bound to suffer. * * All the foreign nations now trade on the barter system, but we are storing the world's gold in the United States and trade will not be on that basis when the war is over. We're just cutting our head off at the jugiar vein. If we keep goin gas we are, the people will ris up and form their own party. But that day is not yet. There will be no third party in 1940.

WORLD'S COLDEST SPOT

Although the South Pole is colder than the North Pole, the coldeat spot in the world is at Verkhoyansk, in Siberia, where temperatures of 90 degrees below zero are recorded.
