

### One-Sided Sweep Of Coats Adds to Slimness Tempo

Reflecting the moods of American life and living and the native fashion genius of American creators, fall coats this season are keyed to the modern tempo with the slim silhouette staging a revival, the inspiration of which first came to American designers in 1908.

Temporarily different, dress coats stand out with their slimmed bodies, interesting manipulations, beautiful fur treatments and new sleeves. The new slim silhouette with pencil line treatment in back and sides, fullness appearing in the front, finds the most popular version in panel or apron front body with unpressed pleats or gores. The classic reofer conforms to the new silhouette too by having the fullness in the front, rather than at the sides. The new lowered waistline is one of the most prominent features in fall coats. Intricately worked details emphasize this newest of the 1940 fall trends. Slide closings too are popular because they make fitted coats more wearable by many women who formerly were unable to accept the fitted silhouette because of the button front.

#### Smooth Fabrics

Fabric textures are smoother with drapable qualities enhancing the softly draped and slim silhouette. The revival of the classic, finds camel's hair, herringbone monotonies and covertas popular, the latter particularly for back to school styles.

Female shoulders will be strictly feminine—no fussy build ups or bulky details. Gentle padding will give them a natural, graceful line to the shoulders.

Straight sleeves in narrow and medium wrist widths appear most popular. The balloon sleeve, which is full, will also be seen, draping over the wrist and then banded at the cuff. The newest sleeves taper down to the wrists with fullness over the elbow.

Pockets in dress coats are usually concealed behind unpressed pleats or alongside of panels. Some coats highlight fur pockets, and in sports and casuals, they are shown in every conceivable fashion. Practical and functional is the sport coat which borrows

### Well Groomed for Work But Casual for Fun

AT-EASE for the great outdoors, is this camel hair coat with railroad stitching and concealed slide fastener.

Aside from the boy's sports jacket, he'll require an outer jacket of leather or warm wool for outdoor play all through the late fall and winter.

He'll need a raincoat too—whether it's of the kind that goes over other outer garments and folds away when not in use—or a reversible tressed coat waterproofed on one side.

Gloves to keep his hands warm; a couple of suits of pajamas for neat comfort while asleep; a sturdy belt.

#### Combination Style for Shoes Is Fall's Decree

Fall favorite in shoe trends, is the combination style which uses a plain leather with a patterned, a dull fabric with a shiny contrast. All shoes retain glove-fitting silhouettes, in line with the long, lean disposition of every fashion in the new season picture.

Casual shoes are way in the lead, with the step-in and bow trimmed pump most popular.

Smart women will be wearing more brown this fall and winter, so an equal variety of attractive styles may be seen in varying tones of brown and black. Ramps, window wedges, rocker and other novelty heels will command their share of affection, but most exciting shoe of the season

#### Youth's Wardrobe Can Readily Be Budgeted

Mothers who are baffled by the problems presented in outfitting their fast-growing boys for another season, will find the suggestions that follow helpful in showing them—and their family budgets—the light of day.

One sweater is essential—but every boy can use a few in sleeveless and long sleeve styles; in plain knit and cable stitch patterns; in practical, dark colors.

#### Pompadour Style One of Smart New Hat Models

The one really new hat style of the season is the pompadour hat which becomingly sits way back on the head—but it is only one of many styles which include the right hat for every costume and occasion.

Pompadour types include bonnets, berets, catots and off-face brims as well as the little high skull caps which first interpreted the need for a hat to go with the new coiffures.

In brimmed types the side sweeping profile hat may be a chic balance for the side-wise dress or coat silhouette. Visor brims, homburzes and off-the-face flatterers are newly devised old favorites.

The casual hat is very important because of the American woman's preference for casual clothes—so scoop brims and roller, snap brims and berets will be seen going to work and school.
