Rumania Feels **Further Quakes During Clean-Up**

BUCHAREST, Rumania, Nov. 12 —(AP)—The German army's preparation of military bases in Rumania was abandoned temporarily

mania was abandoned temporarily today as nazi troops did rescue work among the rulus of homes, shops and factories razed by Sunday's devastating enrichquake,

Reports from the quake-drenched oil fields indicated damage to refineries was widespread, but enough oil remained in undamaged reservoirs to assure undiminished shipments for the reick war machine.

Some observers, however, point-Some observers, however, pointed out another handicap to the
German program in the earthquake's partial disruption of agriture. Much fall plowing is not yet
completed, and tens of thousands
of peasanta will be called from the
land to aid in reconstruction, putting a drain on the nation's labor

German soldiers and Ramanian iron guardists have recovered 260 more bodies from wrecked cities where the total death toll was es-timated at 1,000 to 2,000, with un-told others injured and homeless.

Disastrous slides were reported in the rocky Bucegi range in the Carpathian mountains as minor quakes again were felt today.

(At this point in telephoning his dispatch to Berne, Switzerland, St. John interrupted his dictation to remark that another small tremor "has just shaken my apartment.")

In the oil fields, dozens of villages have been levelled.

Nazi Planes Hold Speed Superiority

Because German warplanes hold the edge on speed over English fighters and bombers, Britain owes her success in the air to better pilots equipped with planes having greater maneuverability and gunfire. What she needs is faster planes, capable of long range flights with heavier bomb loads into the interior of Germany. Chart shows distance various types of British and Nazi warplanecan travel in one hour at maximum speed.
