### A NEW YEAR'S GREETING

What is there in a year— Just months and days and hours? For most of us there's more Than counting time per score, We measure it in terms Of living, planning, growing; And find that after all We reap what we are sowing.

And now another year Is stretching out before us, To do with as we will, To use for good or ill, Three hundred sixty-five New days, within our keeping— We'll rightly start the first With a Happy New Year's Greeting. —Mallada Oetkrink.

## Decisive Blows Against Axis Are Planned by London

LONDON, Jan. 1.—(AP)—Londoners greeted the new year grimly today with shouts of defiance to Adolf Hitler from blacked-out streets pockmarked with the ruin of repeated bombings.

Neither the scared capital nor any other section of Britain reported new bombings or raids overhead throughout the night. The RAF, too, was said to have stayed home.

Year-end reports of the fighting services stressed preparations for heavier blows and a tighter defense in the new year.

The ministry of information termed the next "a prologue" and said "decisive events are now to come. All goes well with the army which, through its action in Libya, has recovered the initiative in the middle east."

The report said the army had been shaped into "a military machine of the latest model" and was ready "for any purpose required in 1941."

The air ministry news service said Berlin had been railed repeatedly, not in retaliation for attacks on London but because "it is the hub of all railways of central Europe and is a great industrial center as well."

It added that the British bombers were following a systematic plan "from which they could be distracted by nothing except an urgent necessity as when Germans made preparations in the channel ports for invasion of this country."

The air ministry reported more than 3,500 "enemy" planes shot down over Britain, the surrounding seas and the French coast during the year. It said the British lost 1,659 planes.

British fighter planes were credited with downing most of the German and Italian planes destroyed, but anti-aircraft gunners were credited with 444-334 of these since Sept. 1.

## Roosevelt Speech Elicits Favorable Mexican Comment

MEXICO CITY, Jan. 1.—(AP)—The government newspaper Nacional declared in an editorial that "faith in justice and in liberty" was reaffirmed in those who listened to President Roosevelt's Sunday night address.

"To those who do not see nor wish to see the dangers which threaten America, the clear and definite reasoning of President Roosevelt are strong spurs," the paper said. "It is naive, infantile and even criminal to suppose that the sea protects from any invasion of totalitarianism, a word as barbarous as its implication, should triumph."

"Mechanical progress in the water and the air has shortened distances in an astonishing manner. Ireland, Dakar or the Azores are excellent springboards for a jump to our continent."

"Concerning the moral possibilities of an invasion, the facts speak. For what served the peace treaties for Poland, Czechoslovakia, Norway, Holland and Belgium? For dictators... a treaty signed is a treaty broken... The last act of the tragedy is about to commence. We do not know when the curtain will fall, but we do know the outcome."

## Prunes Provide Variety of Good Dishes in Winter

By MRS. GAYNOR MADDOX  
NEA Service Staff Writer

A little prune made in a very much in order right now, while this dried fruit is so plentiful. Prunes are a between-season and all-season fruit, with excellent keeping qualities. Each pound yields about 12 servings at a surprisingly low cost.

They supply iron and furnish some calcium. These two minerals must be checked constantly in the average diet. Besides iron and calcium, prunes furnish some vitamin B1 and some vitamin A. But don't depend on prunes for vitamin C, because most of that important vitamin is lost when the prunes are dried.

Wash the prunes and put them in a saucepan, cover with hot water, and let them soak for about an hour. Then put the prunes on to cook in the same water. Cook them for about half an hour, or until they are tender. To sweeten, add about 2 tablespoons of sugar for each cup of prunes just before they are done. A little salt added at the cooking time and a sprinkling of lemon juice at serving time enhance their flavor. If the prunes are intended as part of the meat course, plan to serve them hot, adding sugar and spice and vinegar while they cook. Or the juice from a jar of pickled fruit will give just the right blend of sweet-sour-spice for toning up.

Prunes With Cereal

When prunes go into cooked cereal, it may be easier to use the old method of soaking them overnight. In the morning while the cereal is cooking, remove the pits and chop the prunes. Cook them with the cereal long enough to heat through.

Stuffed prunes make a good salad ingredient when combined with colorful fresh or canned fruit, sliced oranges, grapefruit sections, pieces of pineapple, or peach halves. Soak the prunes until soft, cut a slit in the side of each to take out the pit and fill the center with peanut butter, cream cheese, or cottage cheese.

For sandwiches soak prunes until soft, remove the pits, and grind them. Then mix with salt and creamed butter or peanut butter. Prune bread is both wholesome

Kenneth Kerner, of Surrey, England, has been interested in air-planes since he was a little boy. So it was natural that when he thought about ways in which he might serve his country, he thought of enlisting in the R. A. F. The Air Ministry politely turned down his letter of request, however, saying that there was no plane small enough to train him. So 10-year-old Kenneth went back to his model plane. He'll apply again when he grows up.

## Five Miners Celebrate Rescue From Rock Trap

INDIANA, Pa., Jan. 1.—(AP)—Fetched from death in the bowels of a soft coal mine, five men celebrated New Year's today with unbounded joy—no thankful were they to breathe good fresh air on earth once again.

Unharmful but trembling from nervous exhaustion, the quintet was guided to mine cars and trundled up to safety at 8 o'clock last night, after an 18-hour entombment.

Thirteen other miners working in the same section escaped when tons of slate and rock collapsed at Monday midnight and there were no casualties. The cave-in occurred three miles below the mouth of the drift mine.
