weapons which we know they must have.

TO Hitler et al, he says:

"In fulfillment of this purpose we WILL NOT BE INTIMIDATED by the threats of dictators that they will regard as a break of international law and as an act of war on our part and

to the democracies which dare to resist their aggression."

AS the meat of the coconut, he says to all of us:

"The immediate need is a SWIFT AND DRIVING INCREASE in our armament production."

Right! When you tell bullying gangsters they can't bluff you, you must be prepared to SHOOT IT OUT.

WHEN the time comes to shoot it out, words will be of little value. Only guns and ammunition will count.

Guns and ammunition are produced by deeds.

IN the Balkans today: German troops that are being rushed into Rumania are reported to be consolidating their positions FACING Russian troops.

The Russian ministers to Bulgaria, Yugoslavia, Hungary and Rumania have been called back to Moscow to report.

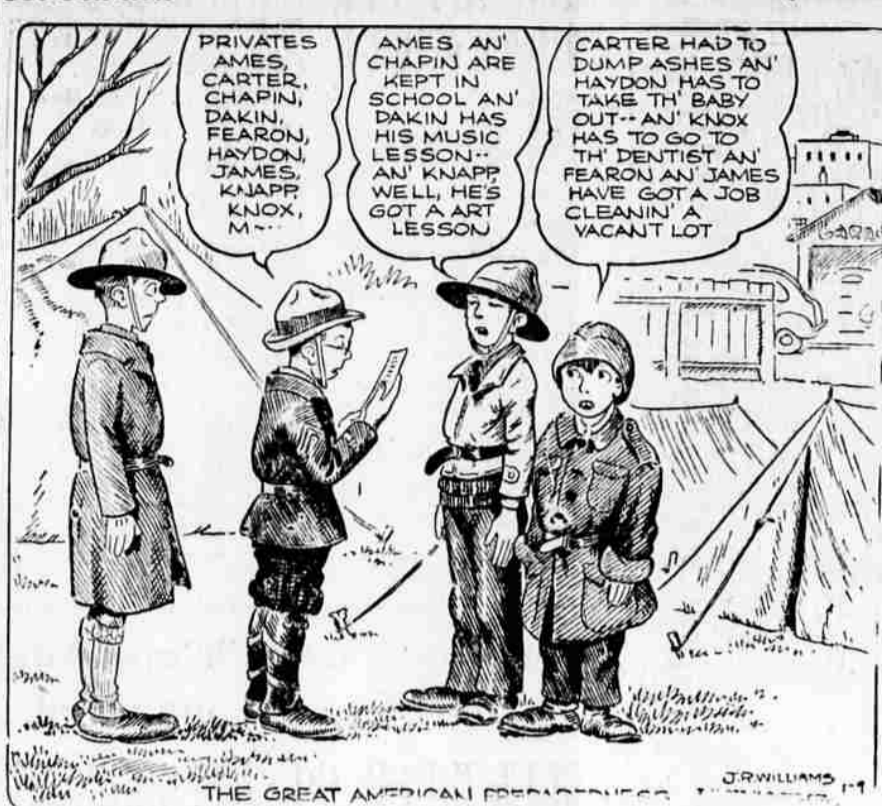

At this point a guess: Hitler WON'T RISK a fight with Russia. If he starts a drive down through the Balkans, Russia will have agreed to it.

THIS, of course, doesn't put Russian treachery out of the picture. Stalin, if it suited his purposes, might let Hitler to go ahead and then TAKE HIM IN THE FLANK at the first favorable opportunity.

Anything is possible in war.

AS to Stalin, the only thing you can be sure of is that he will do whatever seems to suit his own purposes best.

Navy to Add 4,000 Planes This Year, Congress Advised

WASHINGTON, Jan. 7.—(AP)—Rear Admiral John H. Towers told congress today that despite delays and bottlenecks the navy expected to add about 4,000 airplanes to its fleet this year.

The chief of naval aviation, testifying at the opening of an investigation of the navy's shipbuilding and aircraft programs by the house naval committee, disclosed that the number the navy expected to receive this month was 334—about double that of December.

In response to questions by Chairman Vinson (D-Ga.), Towers said that while he was "of course not satisfied" with the present output, he felt that everything possible was being done to remedy the situation.

Discussing delivery schedules which he said had not been maintained, Towers told the committee that among the reasons were shortage of machine tools and tool-makers and failure of some sub-contractors to fulfill their obligations to prime contractors.

The admiral said that on January 1, the navy had 2,500 planes on hand.

The Nizan of Hyderabad, an Indian prince, is reputed to possess \$150,000,000 worth of jewels, most of them diamonds, and the collection of the Gaekwar of Baroda is valued at about \$75,000,000.

Anti-War Stand Denounced in Talk By Army Chaplain

PORTLAND, Jan. 8.—(AP)—Major E. Raymond Attebury, chaplain of the 146th artillery at Camp Murray, asserted last night that "if a society teaches that nothing is worth war, then it has prepared the eventual death of that society."

"You don't realize how far you've destroyed the soul of America by the continuous, insidious propaganda in the schools that nothing is worth war," the former pastor of a Seattle Methodist church told a civic club.

He charged that the United States produced "international anarchy" by failing to go to the rescue of Abyssinia, China and republican Spain. "We've lost the belief that there's something for which we can die young and live immortal," he said. "And if we don't recover it, tomorrow will find us a subject people."

"If there be any God in this universe, this country will pay with blood for the dirty spots that have been put on our flag because we lacked honor," he declared.

Improving—Mrs. Carl E. Wimberly, who was recently discharged from Mercy hospital following treatment for pneumonia, is reported to be convalescing nicely at her home on East Lane street.

U. S. Agriculture Faces Crisis, Says Official of AAA

SPOKANE, Wash., Jan. 8.—(AP)—American agriculture is up against a "life and death" struggle against "wholesale bankruptcy," N. E. Dodd, western division director of the agricultural adjustment administration, said here.

Opening the 13-state western AAA conference of farmers, AAA employes and government officials, the director stressed that a condition closely resembling peonage would be the result for the nation's farmers should the farm program fail.

"For more than a year now the poison of war and economic aggression has polluted the world," he said. "Our AAA program has protected agriculture from the worst effects so far, but each month and each year it will be more difficult to stave off the effects of a dying world trade."

Urging his hearers to study the underlying philosophy of the farm program rather than to hunt only for the monetary payments of compliance benefits, he said: "I fear that if we don't give an 80 to 85 per cent favorable vote in this region on the quota referendum (on wheat), we will have no wheat loans next year. Such a situation, in the face of present conditions, would, I fear, mark the beginning of the end for agriculture as we know it."

"The next step, indicated by history, would be a system of large land concerns and virtual peonage for American farmers."

DAILY DEVOTIONS

DR. CHAS. A. EDWARDS: Our loyalty is the key to our character. To bow before God is an act symbolizing allegiance and obedience. The heart of patriotism is loyalty to the nation. The heart of religion is loyalty to Christ. High living and high lives come out of high loyalties, and the nobler the subject on the object of those loyalties, the more noble and worthy will be the life and character of those who profess and practice their fidelity. Our lives are greatly influenced and largely shaped by the principles and the persons to which and to whom we yield our allegiance. Our relationships have much to do with our destiny. The goodness and the greatness of religion so powerfully appealed to Paul as to lead him to subordinate all other causes. It reorganized his whole life and unified his personal energies. Everything else had to be related to this one central purpose, and for this reason he became a man of the "undivided mind." He laid the sum total of all his powers upon the altar of his Lord. That which differentiates men is not so much their gifts and abilities as it is their power of concentration. Amen.

were Roseburg visitors Tuesday. Jake Smith has returned to his home at Tiller from the northern part of the state where he was visiting and attending to business matters.

Soviet-American Hitch Created By Interned Ships

WASHINGTON, Jan. 8.—(AP)—Eleven small ships which still fly the flags of Baltic republics "absorbed" by soviet Russia remain one of the major obstacles to more friendly relations between Moscow and Washington.

The ships have been tied up in American harbors ever since their home ports in Europe passed into Russian control.

Authoritative sources disclosed today that—aside from the question of what, if anything, to do with these ships—diplomatic relations between the soviet and the United States were on a more cordial basis than they have been in years.

Since the United States still recognizes Latvia, Lithuania and Estonia as independent republics, however, it has refused to turn over to soviet Russia the Baltic nations' ships which sought safe havens in American ports.

Russia is badly in need of merchant shipping and wants the vessels but none of the negotiations, here or in Moscow, has yet established a basis for an acceptable solution to the problem.

The Baltic ships are among the 266 foreign merchantmen which have taken refuge in American ports to escape the risk of falling into British or axis hands at sea. Like the others, they have been earning no revenue, but are piling up port charges instead.

A basic principle of American foreign policy, officials said, was the United States government's refusal to recognize the transfer of sovereignty of any territory acquired by force of arms.
