"Live WORMS in my Child?..Never!"

Better make sure, Mother! Yes, right now, bowel worms (roundworms) may be troubling your child without you even knowing it! This nasty ailment may be "caught" easily, everywhere. And you must not recognize the signs. For example: uneasy stomach, nose-picking, paleness, fidgeting, itching seat, lack of interest.

Don't take chances with roundworms! Get Jayne's Vermifuge right away! Jayne's is America's leading proprietary worm medicine. Scientifically tested and used by millions for over a century. It expels stubborn worms, without upsetting the child. If no worms are there, it is just a mild laxative. So play safe! Insist on Jayne's Vermifuge!
