

### Parking Zone Proposal Of Council Advanced

(Continued from page 1)

permitted on Douglas street from Jackson to Kane; Lane street from Stephens to South Main; Rose street from Lane to Douglas; Oak street from Pine to Kane; Washington street from Stephens to Kane, and Main street from Douglas to Lane.

The parking restrictions would be in force daily, except Sunday, from 8 a. m. to 6 p. m.

The measure will come up for third reading and final passage at the council meeting scheduled for May 19.

#### Playground for Kiddies

The Eagles lodge will sponsor a park and playground on the city-owned lot at the corner of Jackson and Lane streets, the council was informed last night. The lodge requested permission to make the improvement and the council accepted the offer and expressed appreciation for the lodge's interest.

The plan submitted by the lodge provides for grading the lot, construction of a picket fence, which will prevent children from racing out into the street; installation of four swings, sand box, merry-go-round, teeter board, and other playground equipment; two horse-shoe courts, benches, etc. The city agreed to provide a truck to be used in hauling dirt to fill a low corner, and will install a drinking fountain. The lot is to be seeded to lawn, shrubs will be planted and other improvements made.

Mayor A. J. Young reported receipt of a telegram from R. L. Stockman, consulting engineer, who designed the sewage disposal plant now nearing completion. Mr. Stockman expects to arrive here the first of next week for a final inspection of the plant. He will make tests of all equipment and plans to put the plant into service, probably on Friday, May 16.

Councilman C. W. Wharton, chairman of the street committee, reported he had been advised by representatives of the state highway department that the state will probably appropriate from \$1200 to \$1500 to be used on city streets outside the highway. It is planned to use the money, if authorized, in improvements of Second Avenue, South.

#### Boxing Board Named

Mayor Young submitted the appointments of Ivan Pickens, D. B. Bubar, L. E. McClintock and R. L. Whipple to the city boxing commission, and named Councilman W. F. Harris to succeed to the place left vacant on the commission by ex-Councilman E. R. Metzger. The appointments were unanimously ratified.

An amendment to the dog control ordinance, which would eliminate the necessity of publication of notice of impounding where personal notice could be served on the owner, was adopted on third reading.

Plans for the proposed new grade crossing into the airport were submitted by City Engineer H. L. Eppstein and City Attorney B. L. Eddy is instructed to apply to the Southern Pacific Railroad company for permission to make the change. The old and the new crossing would be located further north, by continuation of the county road branching off from the Pacific highway at the Caskey corner.

### Olympia Firm to Build New Mill at Reedsport

REEDSPORT, Ore., May 6.—(AP)—Representatives of the Tumwater Lumber company of Olympia announced today plans to construct a sawmill at the site of the old Johnson Mill company here. The plant will employ 60 men.

The job is contingent on the Oregon highway commission's granting easement beneath the state highway bridge on the Umpqua river to permit log towing.

tacked for the fifth consecutive night.

The British asserted, however, they downed eight German planes during the night and said their own air force hammered western

### Roosevelt Dam "All Wet"—Phoenix Celebrates With H2O

Spilled water generally isn't anything to get excited about; but when water overflowed recently at Arizona's Roosevelt Dam for the first time in 21 years, Phoenix citizens celebrated the drouth's end with a big water festival.

### He's Crowing About This

Bantam rooster apparently takes over town of Bagnell, Mo., as Orange river floods town. Foxy fowl is shown flouting down main street in flooded village store the go-by.

### Turkey Pool Delivery Dates Announced Here

The Oregon Turkey Growers are announcing two summer pools of turkeys to be formed during the months of May and June. The May deliveries will be made at the Roseburg warehouse on May 24 and 31. The June pools will be formed on the dates of June 3, 13 and 16. The manager at the local warehouse will have additional information for interested growers.

### LOCAL NEWS

H. E. C. to Meet—The ladies of the Evergreen grange have been invited to attend the all-day meeting and noon potluck luncheon to be held by the Home Economics club Thursday, May 8, at the hall.

Home From Hospital—Patricia Adams, daughter of Mr. and Mrs. L. J. Adams, of Green, was discharged from Mercy hospital today, following medical attention for a fractured leg, which she recently suffered.

### Sen. Pepper Advises U. S. To Adopt Tough Policy

(Continued from page 1)

fire," he commented. The Florida senator said in a speech prepared for senate delivery: "We must sit on the fence against us near their source. We have already waited too long. If we continue a pussy-footing policy the foe will not fear us and our friends will not respect us."

Speaking of lease-lend cargoes, Pepper asserted that the country "should resolve that no power will keep us from getting the goods to Britain, and getting them there now."

It was up to military and naval experts, he added, to decide on the best method for guaranteeing safe delivery.

As far as Hitler was concerned, Pepper said that the United States should react to him as it had to the Barbary coast pirates in the early years of the last century, and to the gangsters of the Dillinger days.

The suggestion of bombers and "volunteer" fliers for China was prefaced by the assertion that the time had come "to give some plain talk and if necessary some plain action to Japan."

"We know that the little yellow men are waiting behind the door with a drawn dagger to stab us when we become involved with another foe," Pepper said. "We should take the initiative. I believe a few American pilots in first class bombing planes could make a shambles out of Tokyo."

"If the Japanese get a sample in their capital of what they did to China \* \* \* they may lose some of their blood-thirstiness."

House republicans sought and failed today to force an immediate vote on the question of whether the United States should convoy shipments of supplies to Great Britain.

Rep. Bradley (R-Mich.) said that he and others had planned to offer an "anti-convoy" amendment to a pending bill which would authorize President Roosevelt to take over idle foreign-flag tonnage for national defense but had been informed that a parliamentary technicality blocked their attempt.

### South Umpqua Recreation Lure Beckons Vacationist

(Continued from page 1)

and most efficient camps in the Medford district, alternating much of the time with Steamboat camp for first place. The banner for excellence now is held at South Umpqua Falls. This camp is situated on a well-

wooded site beside the river. Attractive buildings have been erected and the grounds neatly landscaped. The enrollees have even constructed fish ponds and sundials to beautify the grounds. The mess hall, finished in knotty pine, has a completely equipped kitchen and is adjoined by a bakery which turns out much of the bread and many of the pastries furnished the men. A spike camp a few miles further up the road is aptly named "Coffee Pot Camp."

Among the interesting departments maintained in the main camp is that in which forest signs are manufactured. The signs are made by cutting letters and figures into wood panels. These signs are replacing the formerly used metal signs as rapidly as possible. At present the crew is working on a complete set of signs for the Diamond lake recreational area. Included is a huge carved wood map on which will be shown all of the improvements, resorts, stores, camp grounds and other facilities at the lake. It will be placed beside the highway as a guide to those who visit the area.

#### Camping Comforts Extended

The South Umpqua Falls region is rapidly developing as a recreational area and the forest service is meeting this condition by extensive improvement. A new cabin is now in process of completion and will be occupied by forest service personnel during the coming summer. Shelterers have been built for the use of campers, and numerous improved public campsites have been provided, complete with stove, tables and benches.

Similar public camps also have been provided at Camp Comfort, now the terminus of the road, as well as at various scenic spots at frequent intervals along the road.

A large number of persons are expected to visit the area within the next few weeks, particularly to see the wildflowers now to be found in profusion. Dogwood is in full bloom along the river. Rhododendrons are just coming into bloom and will be at their best within the next two weeks while the numerous seasonal wild flowers of all types are to be found in profusion.

From Camp Comfort trails branch off into all sections of the South Umpqua forest district. One of the most used of these trails is that leading to Fish lake, a distance of seven miles.

#### Fish Lake Beckons Anglers

Fish lake was visited over the week-end by a party which included Forest Supervisor V. V. Harpham, Glenn E. Mitchell, wild life supervisor from the regional life supervisor from the regional trier Ranger Berry, Harris Ellsworth, editor of the News-Review and the writer.

The lake, which covers an area of more than 100 acres, is nestled between steep, heavily wooded hills, and is fronted on the east by two high-towering rocky peaks, now topped with snow. It abounds with eastern brook and rainbow trout, and is particularly popular with fishermen who are willing to make a long overland trek to find such ideal fishing conditions. All provisions and bedding must be packed in. There is a good trail for the entire distance.

At the present time the lake has from 300 to 500 visitors annually, but interest is steadily growing and it is expected that a shorter season may be necessary at some future date to preserve the fish life. The fish range in length up to 12 inches, with an occasional larger catch. Even the novice fisherman has no trouble taking the limit of

### FUNNY BUSINESS

"Insomnia, officer!"

Germany. The big industrial center of Mannheim was said to have been the main target of the RAF. Belfast, subjected Sunday night to a heavy attack with 79 deaths, was one of the objectives on which the Germans loosed bombs in northern Ireland during the dark hours before dawn today.

### Eden Urges Haste in Aid; Iraq Warfare Spreading

By the Associated Press

British Foreign Secretary Anthony Eden coupled a hurry-up appeal today for United States war materials with a warning to the Arab peoples of the middle east not to side with the axis at the cost of their freedom.

Even as he spoke, fighting spread in the kingdom of Iraq in the dispute over the presence of British troops.

RAF warplanes bombed Iraq airfields, motor transport and other military positions; and London quarters made it clear that Britain was determined to fight rather than yield to the regime of Premier Rashid Ali Al Gailani, even at the risk of opening a new war front.

A war bulletin said that the four-day Iraq shelling of British-held Haobaniyah airdrome, 60 miles west of Baghdad, had produced only "negligible" results. Eden declared that Britain's

paramount need is ships and more munitions "because every more in the diplomatic field is conditioned by our military strength."

Eden said the British were very grateful for the offer of the good offices of the Turkish and Egyptian governments in mediation, but until Iraq withdrew her troops from Habbaniyah and ceased hostilities, Britain would not discuss fulfillment of her treaty rights.
