deeper down in the party. Their insistence that this isn't true suggests that it IS true.

SUPPOSE you were Hitler. Suppose your right hand man who had been with you from the beginning, who knew ALL your inside stuff, had gone suddenly over to the enemy, either in a huff or in deadly fear of his

life You'd be WORRIED. You can bet your bottom dol-lar HITLER is worried.

ALL these are guesses. They HAVE to be guesses Because of propaganda and censorship, we can't believe either the British or the Germans

The Germans will do all they can to cover up and the British will do all they can to make it look good for their side. All we can do is guesss.

NOTE that the stock markets in both London and New York WENT UP today. That D. C., that the army is looking to shows how the general public is guessing.

In fact it seems to the layman that there are some mighty compelling reasons why an area in the vicinity of Roseburg should be considered for such a troop concentration. This city is the nearest inland city to, and equal in distance from, three harbors-Coos Bay, Port Umpqua and Bandon. This city is almost ex-actly half way between the troop concentrations in the San Francisco Bay area and Fort Lewis or Camp Murray. This city has a direct road connection east through the Cascades via the North Umpqua river. The climate here is better than at Medford-this can be proven by U. ## U.S. Visions Biggest Peacetime Army: 2,800,000 Men

Plans are now under way to increase the strength of the U. S. Army, now passing the million mark, to 2,800,000 men. Dictochart compares this mobilization with strength of the army as it was two years ago and during major wars. Civil War figure is for Union army; the Confederate army numbered between 700,000 and 900,000 men.
