Boeing To Boost Output of Bombers

SEATTLE, June 3.—(AP)—The Boeing Aircraft company announced last night that three huge west coast aircraft manufacturers would establish a "patriotic cooperative" to produce bombers in all their plants.

Other firms affected will be the Douglas Aircraft Co., of Santa Monica, Calif., and the Vega Airplane Co., of Burbank, Calif. The announcement said each of the factories would turn out complete Boeing bombers and that several other manufacturers would be given sub-contracts. It explained that the cooperative was established to help meet the demand for the four-engine, long-range bombers designated by the war department as immediately necessary for national defense and for aid to Britain.

Coincidentally, the Boeing company announced immediate construction of an addition to its Stearman divisions plant No. 2, at Wichita, Kans.
