Higher Pay for State Employees to Be Asked

SALEM, June 18.—(AP)—Representatives of the State Federation of Labor will appear before the board of control next Wednesday to ask for shorter hours and higher pay for employees of state institutions. D. E. Nickerson, federation secretary, told the board today.

The 1941 legislature authorized small pay increases and decreased hours slightly, the board asserting today it has no power to go beyond the legislature's action.

Attendants at institutions average about \$55 a month, plus board and room, and work about 72 hours a week.

Sailor Accused in Case of Missing Auto Owner

COVIER D'ALENE, Idaho, June 18.—(AP)—The two-pronged search in the case of the disappearance of Douglas Smith, 25, missing Seattle electric meter reader, extended today the length of the Pacific coast.

A forgery warrant was on file at Colfax, Wash., against James

Harvey Thomas, 22-year-old sailor from the San Diego naval hospital. The information on which the warrant was based charged that Thomas forged Smith's name to gasoline credit card slips while driving the car of the man who disappeared last Wednesday.

Idaho State Patrolman Dave Wells said two girls and a youth told him they were passengers in Smith's car when it was wrecked near Tensed, Idaho, last Thursday. They said the driver was a sailor, who told them he had borrowed the car from a friend.

Japan Insists On East Indies Share

TOKYO, June 18.—(AP)—Japan announced today that she had demanded the right to share with "third powers" the United States and Britain were indicated—in the economic fruits of the Netherlands East Indies.

Acknowledgement that 20 months of negotiations with the Dutch to that end had been broken off at Batavia in an unsatisfactory stalemate, she said she would "hold fast to her just and fair contentions."

Materials and goods, general trade relations, Japanese immigration and the pursuit of their occupations and investments in shipping, aviation and communications were among subjects listed.

"As regards the forementioned matters, especially aviation connections," the statement said, "they were already being carried on between third powers and the Indies; and, in investments in enterprises such as the oil industry, Anglo-American capital had been showing remarkable activities."

"Third powers thus are very liberally permitted to engage in all these enterprises."

Shad Catch Heavy On Lower Umpqua

Lower Umpqua commercial fishermen are making a record catch of shad, according to Dick Miles, state policeman for the Reedsport district, who was a business visitor in Roseburg today. The shad catch, Miles reports, is resulting in about \$1,000 returns to fishermen daily.

Due to the heavy run of shad, few fishermen are not netting chinook salmon, although the salmon still are entering the river. The salmon catch this year, Miles reports, has been one of the largest for several seasons.

Trollers are beginning to take large catches of silverside salmon outside Winchester bay, at the mouth of the river, but so far such fish have not begun to enter the bay but are expected to come inside soon, at which time they will afford good sports fishing.
