## Tired Kidneys Often Bring Sleepless Nights

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. When they get tired and don't work right in the daytime, many people have to get up at night. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't neglect this condition and lose valuable, restful sleep. When disorder of kidney function permits poisonous matter to remain in your blood, it may also cause nagging backache, rheumatism, pain, leg pain, loss of pep and energy, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

There's no trick to baking biscuits for breakfast with a Ward electric range. Simply mix the batter, pop the tin in the super-speed oven... and presto, in 10 minutes you have a batch of piping hot biscuits! You'll find this added speed not only in the oven, but on the 7-beat Chromalox top units as well! They're the fastest-heating units we know of! They guarantee you fewer hours in the kitchen... more leisure time!

**NO LONGER A LUXURY**

Wards electric range won't strain your budget. Figures prove it! For example, a recent impartial survey showed the average cost of electric cooking was just \$2.30 a month! And, with all the current-saving features of your Ward range, this figure should be far less. What's more, Wards have taken the padding out of electric range prices.
