Re-Name North Roseburg Streets

THE chamber of commerce has decided to have a committee work with the city council for the purpose of working out a plan for renewing all of the street signs in the city.

Now that it is difficult to read existing street markers—and has been for some little time—it would be a good time to correct the most maddening mix-up of street designation that the mind of man ever dreamed up.

Right. It is the understanding of that is the catch. And after you understand it you must have a fine memory to be able to recall what you understand long enough to make use of your knowledge.

Unless all signs fall this city is going to grow considerably during the next ten years. Let's get some of these things done now while they are easy to do.

To Open Elk Season

At its meeting in Portland tomorrow the Oregon state game commission will consider the matter of opening the season for elk hunting in Douglas and Coos counties.

Although there is a relatively small interest in this subject on the part of eastern Douglas residents, the elk problem is something to think about down river where elk herds actually do some damage to the farms.

What concerns the game commission is a desire to keep and increase elk as game animals in this part of the state. Strangely enough, the commission experts have discovered that herds of elk actually increase when some of the old fighting bull elks have been done away with.

At the last session of the legislature, the game commission was empowered by a new law to have full authority in matters of this kind. It is a question of scientific game management.

DNB (the German propaganda service) describes this "trickery" as showing how the Germans "have to keep their wits forever about them."

It is really a HIGH COMPLIMENT to the Russians. These "tricks" are a part of the fabric of war. In one form or another, they have been employed by every great commander since fighting began.

Every ring fighter who gets anywhere uses feints. Fake plays are a part of the tactics of every successful football coach.

THE Russians, you see, are NOT as dumb as they might be. These "trickery" tales the German propagandists are peddling prove it.

JAPAN, obviously concerned about American occupation of Iceland, describes it as a "stride toward war" and compares it to the possible sending of Japanese troops to the Dutch East Indies.

When she means business, she will START DOING.

Income Tax to Be Stiff Jolt in 1942, Treasury Warns

WASHINGTON, July 11 (AP)—Treasury experts, giving a thought to the many state taxes, warned today that the jolt of next year's income taxes is going to be heavier than many people anticipated.

For instance, assuming enactment of the new federal income tax program along the lines planned by the house ways and means committee, a married man with one child and a \$10,000 taxable income will owe Uncle Sam \$1,116.

But if this man lived in New York, he would have to add on about \$260 for the New York income tax, and his total bill for income taxes would be \$1,376.

These figures are not necessarily typical, but 31 states have individual income taxes similar to the federal levy.

The Fourteenth amendment is our protection against the dictatorship theory which disregards laws for individual leaders who believe themselves superior to the Constitution of the United States.

14th Amendment to Be Observed in Radio Talk

Adoption of the Fourteenth amendment to the Constitution of the United States in July, 1868, will be commemorated in the eighth of a monthly series of "Speak Up for Democracy" radio talks to be heard over radio station KRNR at 3 p. m., Friday, July 11.

On the same day, millions of radio listeners, tuned in on 400 stations will hear the same address delivered by speakers for

Defense Quiz

Q. I would like to provide a regular income for myself when I retire. Can this be done by means of the Defense Savings Bonds?

A. Yes. If you purchase a Bond for \$37.50 each month, each Bond will mature in exactly ten years.

Q. But I will need more than \$50 a month.

A. Then you should invest a larger amount each month. Every \$75 you put into Defense Bonds will pay you \$100 ten years from now.

Note—To buy Defense Bonds and Stamps, go to the nearest post office or bank, or write to the Treasurer of the United States, Washington, D. C., for an order form.

Dodge Truck Sales in Roseburg Upped

Dodge truck sales are booming in Roseburg, according to Si Dillard, Roseburg Dodge dealer, whose truck sales increase for the first six months of 1941 is 110 per cent above the average increase for the remainder of the state and almost exactly twice the national average, he reported yesterday.

"The Dodge truck 'Job-Rated' theme in national and local advertising is the finest bit of truck advertising that has been published and it fits the new Dodge trucks like a glove," Dillard explained yesterday.

While the percentage of increase in Dodge unit sales is phenomenal, it is not as large as the increase in dollar volume, due to the increased interest in larger trucking units, such as the big two and three-ton gas and diesel jobs that are used for truck logging and truck transport, according to Dillard.

Now is the time to buy trucks, in the opinion of Dillard, who believes that present prices cannot last. "Our experience in the last world war leads us to believe that prices are likely to advance beyond present levels. We believe every prospective truck purchaser should buy quality merchandise and buy now if he wants to protect himself against eventualities of the future," Dillard concluded.

Since 1938, Oregon has been the Nation's biggest lumber-producing state, taking the lead from Washington which had ranked at the top since 1905, according to the Census.
