Reorganize the "Chiefs"

THERE has been considerable discussion the last several days about reorganizing the once famous organization—the Umpqua Chiefs.

The Grants Pass Cave Men have done a truly marvelous job—and a consistently good one—of publicizing the city of Grants Pass.

The "Umpqua Chiefs" organization should be revived, placed on a business-like and sound basis and their work for the community should, we think, be financed by the business community as a whole.

Italy Starts a Short War

THE Italians didn't do notably well against the Greeks, the British, the Australians. So now they are embarking on another war, a war on shorts and long pants for women.

In Florence, police forbid either garb, and severely threaten that if a woman is caught riding a bicycle while she is wearing trousers, the bicycle will be confiscated.

So Italy declares war on shorts and pants. It may be a long war, with the police doing the panting, if Italian women are anything like American women.

That, if true, would indicate that Russia is so short of reserves that she is moving her Far Eastern army into the western battle.

THE Russians, not to be outdone in the battle of the typewriter, assert that they destroyed two Nazi divisions and that the Hitler blitzkrieg has bogged down into old-fashioned siege warfare.

NOTE that German reports of damage done to the Russians are concerned more with DESTRUCTION of armies than with capture of cities.

The Dalles to Seek Basketball Tourney

THE DALLES, July 30.—(AP)—Oregon high schools were invited to hold the 1942 basketball tournament at The Dalles yesterday.

Willamette university, previous host of the tournament, said last week it would not invite the tourney back again next year.

Frank Brumbaugh, Wasco county school superintendent and chairman of a community committee set up by The Dalles Breakfast club, said a new gymnasium was available and ample support assured for the tournament.

He asked Troy Walker, state high school athletic association secretary, to schedule a meeting between The Dalles representatives and the association directors.

Traffic Deaths In U. S. On Increase

CHICAGO, July 30.—(AP)—The nation's traffic death toll during the first half of 1941 climbed 17 per cent over the same period of 1940, a trend which the national safety council said today pointed toward an all-time high for the year.

The six-month total was 16,810 or 2,390 more than the 14,420 for the same 1940 period.

Unless the trend is checked, the council said, the 1941 annual count will shoot past 40,000, compared with last year's 34,500. The last half of the year invariably brings the heaviest toll.

The council said the rise could be explained only in part by increased travel, for travel climbed only 12 per cent while deaths rose 17. Consequently, the mileage death rate was 5 per cent higher than for the same period last year.

This is especially disturbing, the council said, "since even in years when the traffic toll has increased, the mileage death rate has dropped."

The death increase was general throughout the nation, only nine states cutting their traffic fatalities during the first half of the year.

U. S. Naval Patrol Aiding To Win In Atlantic Battle

WASHINGTON, July 30.—(AP)—Chairman George (D-Ga.) of the senate foreign relations committee said today that the United States naval patrol of sea lanes to Iceland appeared to have been of such assistance that Great Britain was "slowly gaining the upper hand" in the battle of the Atlantic.

The senator also spoke with guarded optimism of the Russian stand against the German blitzkrieg into the soviet. He referred to reports from the eastern front as "heartening."

Emphasizing that he based his observations only on unofficial reports that had come to him, George told reporters there were indications that the American defense patrol of the sea lanes had been of "great value" to the British in efforts to move supplies to beleaguered Britain.

(When President Roosevelt notified congress July 7 that the United States was undertaking the protective occupation of Iceland, he announced that he had given the navy orders that "all necessary steps be taken to insure the safety of approaches between Iceland and the United States.") Only yesterday Prime Minister Winston Churchill told the British house of commons that, partly due to "American intervention," the battle of the Atlantic was "moving progressively in our favor."

Ballooning Tuna Price Tumbles

ASTORIA, Ore., July 30.—(AP)—The price paid for albacore tuna here, which sailed up to an unheard of \$302.50 per ton under a wave of stubborn bidding, came down just as fast and almost as far Tuesday.

Three packers purchased 21,000 pounds landed by five boats for an average of \$170 per ton. This is well above the previous average of \$150 per ton but \$132.50 below the giddy top.

Tuna fishermen posted their catches on an auction board—similar to Seattle's halibut exchange—and waited to see if the battle of bidders would resume. It didn't. Van Camp's Seafood Products, California, which maintains a buying station here, bought 2500 pounds from the schooner Heron for \$170, then took another 4000 pounds from the craft Mermaid for the same price. No bidding developed.

Later the Columbia River Packer's association (which is not an association of all river packers) offered and got 7000 pounds from two boats at the same money. Barbary Packing company took 7500 more from another boat—largest catch of the day—for \$170.

Packers, who paid better than 15 cents a pound for the fish in the meteoric transactions, predicted the price would stabilize around \$170.

Wounded Canadian Tells Of War in Greece, Crete

PORTLAND, July 29.—(AP)—T. J. Hazelwood, Canadian artilleryman now convalescing from wounds, said in an interview last night "the Germans lost 10 times as many men as we did in Greece and Crete."

The 47-year-old American-born soldier, who served with Canadian forces in the first world war, was with the British forces both in Greece and Crete.

"After capturing Mount Olympus," he said, "German infantrymen came down in waves, locked arm-in-arm. As fast as they were mowed down others kept coming, walking over their own dead and wounded. They crossed one stream that ran red with their own blood."

Hazelwood suffered a shrapnel wound in an arm at Crete.

Motorship Oregon Will Make Test Run Friday

TACOMA, July 30.—(AP)—The motorship Oregon, fourth of the new Tacoma C-1 type to be produced by the Seattle-Tacoma Shipbuilding company, will undergo her builders' trial runs Friday, the company announced today.

The new ship's dock trials today were declared satisfactory.

The Oregon and her sister ship, the Idaho, will be delivered next month to the States Steamship company, of Portland, presumably for trans-Pacific service.

The Idaho currently is nearing completion.

The first of the larger C-3 ships to be used as an army transport, will be launched in September.

Airport Project Slowed By Lack of Workmen

REDMOND, July 30.—(AP)—Work at the \$717,000 airport project here proceeded at snail's pace today because of lack of materials and workmen.

Cliff LaFontaine, Deschutes county WPA supervisor, said private industry had absorbed many of the workmen, the number dwindling from 70 two weeks ago to 25 now. An additional 24 men are available, but must remain idle until skilled operators are found for machinery.

He withdrew a call for bids on power shovel equipment because of the delays, and said blasting powder had not arrived and delivery of steel fence posts was not assured.

Portland Milk Price Increase Requested

PORTLAND, July 30.—(AP)—A demand for a 1 cent increase in the price of 5 per cent milk in the Portland area ended an Oregon milk control board hearing yesterday.

The increase to 13 cents a quart, is needed to put 5 per cent milk in line with other grades, Herbert Swett, producers' attorney, told the board. Four per cent milk recently was increased to 12 cents.

He added that costs and demand had risen, but that the industry was undecided on increasing prices of other milk grades.
